## BEDFORDSHIRE

### AMPTHILL

*O.S. Map Ref:* *Extant:*   
*Device:* Stocks and Whipping Post *Remains:*   
*Date Built:* Post 1786 *Demolished:*   
*Listed:* *Conservation Area:*   
*Dimensions (metres):*  
*Location:* Between the columns of the Market House, in Market Square.

The device was commissioned by the Parish Vestry.

*References:*  
CRO: P30/8/1 - 1786

### AMPTHILL

*O.S. Map Ref:* *Extant:*   
*Device:* The Pillory *Remains:*   
*Date Built:* Post 1786 *Demolished:*   
*Listed:* *Conservation Area:*   
*Dimensions (metres):*  
*Location:* Between the columns of the Market House, in Market Square.

The device was commissioned by the Parish Vestry.

*References:*  
CRO: P30/8/1 - 1786

### BIGGLESWADE

*O.S. Map Ref:* *Extant:*   
*Device:* Stocks *Remains:*   
*Date Built:* *Demolished:*   
*Listed:* *Conservation Area:*   
*Dimensions (metres):*  
*Location:* In the Market Square.

## DUNSTABLE

*O.S. Map Ref:* *Extant:*   
*Device:* Stocks and Whipping Post *Remains:*   
*Date Built:* Before 1812 *Demolished:*   
*Listed:* *Conservation Area:*   
*Dimensions (metres):*  
*Location:* Outside what was once Ashten Lodge (now modern shop premises) on the south side of West Street. The site is recorded with a plaque on the shop wall.

The stocks consisted of two pairs of stock boards, with each pair set either side of a central whipping post. Each half of the stocks contained three leg-holes.

An illustration by Thomas Fisher (c. 1812) is in the Town Council Chamber.

*References:*  
GODBER, J., *History of Bedfordshire*, Bedfordshire County Council (1969), pp. 370-373.

## KENSWORTH

*O.S. Map Ref:* *Extant:*   
*Device:* Stocks *Remains:*   
*Date Constructed:* Unknown *Demolished:*   
*Listed:* *Conservation Area:*   
*Dimensions (metres):*  
*Location:* Probably on the small village Green outside the churchyard.

## LUTON

*O.S. Map Ref:* *Extant:*   
*Device:* Stocks and Pillory *Remains:*   
*Date Built:* Unknown *Demolished:*   
*Listed:* *Conservation Area:*   
*Dimensions (metres):*  
*Location:* On Market Hill.

The pillory was located near to Market House and the stocks near St. Mary's Church until they were moved next to the pillory on Market Hill.

## MILTON BRYAN

*O.S. Map Ref:* *Extant:*   
*Device:* Stocks *Remains:*   
*Date Built:* Before 1691 *Demolished:*   
*Listed:* *Conservation Area:*   
*Dimensions (metres):*  
*Location:* The local historian has advised that the approximate location was by the site of an 'Old Stocks Elm', which is now dead.

The parish records include two early reports of the stocks being used. The first was on 22<sup>nd</sup> October 1691, when Jeffrey Baylye (aged 24) and his wife Judith (aged 26) were put in the stocks and 'Openly whipt' for vagrancy. Later that same day they were both sent back to their home village of Water-Eaton in the nearby parish of 'Bletslye' (Bletchley) and advised to claim poor relief from them. The second report was dated 9<sup>th</sup> February 1691, and involved the vagrants Anne Taylour (aged 31) and her sister Dorothy Beech (aged 22). Both women were 'Openly whipt at the stockes' and permitted to stay for a maximum period of 40 days before being 'Assigned to passe from Constable to Constable to Scarborough In Yorkshire, the place of ther birth and Legall Abode as they said'.

Also in the parish records are the following entries:

- 00 03 10 **1686:** Mar 19 paid to John Gurnee for the Iron and Ironwork of the Stocks.
- 00 00 09 **1698:** A bill of work done upon the towne account by mee Nicholas Herbert june the 14 – 1698. I was half a day mending the Stockes.
- 00 01 10 for 1 foot & 3 quarternes of timber for posts for the stokes.
- 00 00 03 **1697:** for on quarte of Ale when Nicholas Herbert franke when he mended the stockes.
- 00 00 02 **1749:** Jan 15 For a Stapel for the Stocks.

**RISELEY**

*O.S. Map Ref:* *Extant:*   
*Device:* Stocks *Remains:*   
*Date Built:* Pre 1658 *Demolished:*   
*Listed:* *Conservation Area:*   
*Dimensions (metres):*  
*Location:* Unknown.

Joyce Godber's book *History of Bedfordshire* has mention of several Riseley Quakers who 'reproved the incumbent in a scriptural manner for his misconduct' were put in the stocks in 1658.

**SUTTON**

(Biggleswade)

*O.S. Map Ref:* *Extant:*   
*Device:* Stocks *Remains:*   
*Date Built:* Unknown *Demolished:*   
*Listed:* *Conservation Area:*   
*Dimensions (metres):*

*Location:* Until 1870 the stocks were erected opposite the entrance to the Bear Garden – an enclosed area which was at one time used as a kitchen garden by the local landowner: the estate was sold in 1939.

**BERKSHIRE****BUCKLEBURY**

*O.S. Map Ref:* *Extant:*   
*Device:* Stocks and Whipping-post *Remains:*   
*Date Built:* *Demolished:*   
*Listed:* *Conservation Area:*   
*Dimensions (metres):*  
*Location:* Near to the parish church.

**EAST ILSLEY**

*O.S. Map Ref:* *Extant:*   
*Device:* Stocks *Remains:*   
*Date Constructed:* Unknown *Demolished:*   
*Listed:* *Conservation Area:*   
*Dimensions (metres):*  
*Location:*

Up to the mid-nineteenth century, the rural village of East Ilsley was better known as Market Ilsley because it held one of the biggest sheep markets outside of London. At the great August Fair, upwards of 30,000 animals were sold in the narrow streets, all of which were housed in wooden pens that lined the village roads and lanes. This was one of the reasons why East Ilsley has a high proportion of public houses (6) and bakeries (4) amid a village that otherwise contained less than 30 properties. Market days could be lively affairs, especially when traders and shepherds emerged from the inns – The Black Horse, The Crown and Thorns, The Star, The Swan, The White Hart, and The White

Horse. Brawling and public affray were not uncommon offences, and possibly inspired the poem:

Ilsley, remote among the Berkshire Downs,  
 Claims this distinction o'er her sister towns;  
 Far famed for sheep and wool, though not for spinners,  
 For farmers, shepherds, publicans and sinners.<sup>1</sup>

**ETON**

*O.S. Map Ref:* SU 94... 78... *Extant:*   
*Device:* Stocks and whipping-post *Remains:*   
*Date Constructed:* Unknown *Demolished:*   
*Listed:* *Conservation Area:*   
*Dimensions (metres):*  
*Location:* In the High Street, next to what in 1973 was known as the 'Cockpit' restaurant.

Listed in the Letters page of *Berks, Bucks and Oxon Life*, vol.13, no.66 (Feb 1973), p.29.

**LAMBOURN**

*O.S. Map Ref:* SU 32– 78– *Extant:*   
*Device:* Stocks *Remains:*   
*Date Built:* *Demolished:*   
*Listed:* *Conservation Area:*   
*Dimensions (metres):*  
*Location:* Inside the Church.

Little is known about the stocks except that they were for some time kept at the police station, and later the fire station.

**MIDGHAM**

*O.S. Map Ref:* SU 551 667 *Extant:*   
*Device:* Stocks and Whipping-post *Remains:*   
*Date Built:* 1761 *Demolished:*   
*Listed:* *Conservation Area:*   
*Dimensions (metres):*

*Location:* Probably on a piece of land at the junction of the now Brimpton road and the Bath road (A4), almost opposite the Coach and Horses public house.

The timber stocks (complete with iron hasp and staple) were reasonably well documented in the Constable's Accounts. For example, in 1741 the Constable was John Awbrey, and was paid three shillings and twopence for 'mending stocks and whipping post'. Later, in 1754, John Marshall was paid one shilling and fivepence for a 'hasp and staple for the stocks'. But by 1761 the old stocks had clearly worn out. The then Constable, John Mildinghall, commissioned a new set for nineteen shillings and sixpence. These were then painted in 1799, presumably with a preservative oil.

**NEWBURY**

*O.S. Map Ref:* SU 47– 66– *Extant:*   
*Device:* Stocks, pillory and whipping post *Remains:*   
*Date Built:* c. 1680 *Demolished:*   
*Listed:* *Conservation Area:*   
*Dimensions (metres):*  
*Location:* Inside the Museum.

The stocks were originally located on the north side of the Guildhall, erected in 1611 in the Market Place. This was an important building in seventeenth century Newbury, and was where the body of the Royalist Lucius Carey, Viscount Falkland,

<sup>1</sup> HAMMOND, N., *The White Horse Country*, William Smith, Reading (1972).

was carried after the First Battle of Newbury (20<sup>th</sup> September 1643). In 1684 a prison was built on the east side, and the adjoining council chamber used for the quarter sessions. Also at that time, a pillory and whipping post stood on the south-west angle of the building. By the 1820s, the town had become an important staging post and the Guildhall was considered by the Corporation to be 'hindering the easy passage of horses and carriages'. The enactment of the Newbury and Speenhamland Improvement Act, 1825, paved the way to the Guildhall's demolition, which finally occurred in 1828. The stocks were also removed and put in storage in the Town Hall cellars. They were brought out returned to the Market Place when needed.

The last time the stocks were used was in 1872 when a rag and bone dealer by the name of Mark Tuck was set in the stocks for drunkenness 'after several terms of imprisonment had failed to effect a cure.'<sup>2</sup> His crime on that occasion was that he had disturbed a service at St. Nicholas Church by starting a drunken brawl. Tuck was well-known as a man who drank too much. He had already been subjected to a term of imprisonment in Reading gaol, the effects of which were said to have 'failed to produce any beneficial effect'. After his fight at the church, he 'was fixed in the stocks for drunkenness and disorderly conduct in the Parish Church on Monday evening. Twenty-six years had elapsed since the stocks were last used, and their reappearance created no little sensation and amusement, several hundreds of persons being attracted to the spot where they were fixed. Tuck was seated upon a stool, and his legs were secured in the stocks at a few minutes past one o'clock, and as the church clock, immediately facing him, chimed each quarter, he uttered expressions of thankfulness, and seemed anything but pleased at the laughter and derision of the crowd. Four hours having passed, Tuck was released, and by a little stratagem on the part of the police, he escaped without being interfered with by the crowd.'

Despite his drunken reputation, the name Mark Tuck has survived in history as the last recorded person in Britain to be imprisoned in the stocks.

## SULHAM

*O.S. Map Ref:* SU 518 674 *Extant:*   
*Device:* Stocks *Remains:*   
*Date:* *Demolished:*   
*Listed:* *Conservation Area:*

## THATCHAM #1

*O.S. Map Ref:* SU 518 674 *Extant:*   
*Device:* Stocks and Whipping-post *Remains:*   
*Date:* *Demolished:*   
*Listed:* *Conservation Area:*   
*Dimensions (metres):*

*Location:* Close to the base of the Old Market Cross in The Broadway, Thatcham.

According to the notes of Mr Thomas Henry Brown, a local man who died in 1939, the stocks and whipping-post were originally located in Chapel Street. The stocks and whipping-post were moved around 1863, and demolished at some time between then and 1900. Mr Brown also told that the last man to be set in the stocks was a local character by the name of 'Barkshire Blake' probably for drunkenness. It is said that it rained on the day that

Blake was set in the stocks and a Mrs Barfield, the wife of a local solicitor, took pity by holding an umbrella over him to try and keep him dry.

## THATCHAM #2

*O.S. Map Ref:* SU 487 674 *Extant:*   
*Device:* Stocks and Whipping-post *Remains:*   
*Date:* *Demolished:*   
*Listed:* *Conservation Area:*   
*Dimensions (metres):*  
*Location:* Close to Ham Mill Bridge.

## WHITE WALTHAM

*O.S. Map Ref:* SU 85... 77... *Extant:*   
*Device:* Stocks and whipping-post *Remains:*   
*Date Constructed:* Unknown *Demolished:*   
*Listed:* *Conservation Area:*   
*Dimensions (metres):*  
*Location:* Next to the church, beneath a timber cover.

A photograph on the Letters page of *Berks, Bucks and Oxon Life*<sup>3</sup> shows an arrangement of two wooden end posts, one of which has the manacles for the whipping-post, and two wooden stockboards containing four leg-holes.

## WINDSOR

*O.S. Map Ref:* SU 95... 76... *Extant:*

## WOKINGHAM

*O.S. Map Ref:* SU 813 686 *Extant:*   
*Device:* Stocks and Pillory *Remains:*   
*Date Constructed:* *Demolished:*   
*Listed:* *Conservation Area:*   
*Dimensions (metres):*  
*Location:* Outside of the Guildhall, in the Market Place.

According to the Heelas Papers<sup>4</sup> 'the stocks and pillory stood on the side facing the north-east side of the Market Place' next to the lock-up. One of the last occupants of the stocks was an old silk weaver known as 'Chalkey' who was too fond of 'good ale' for his own good (*see: Wokingham Lock-up*).

## BRISTOL

## BUCKINGHAMSHIRE

ADDINGTON *O.S. Map Ref:* SP 74- 28-  
 Stocks

Located in a scruffy brick container outside of the barn to the north-west of Addington House.

<sup>3</sup> *Berks, Bucks and Oxon Life* vol.13, no.66 (Feb 1973), p.29. The same photograph also appears in LEA, Raymond, *Country Curiosities: The Rare, the Odd and the Unusual In the English Countryside*, Spurbooks Limited (1973).

<sup>4</sup> Formed in the 1930s and available in the Berkshire Record Office and at Wokingham Library. No references were made for the statements included in the papers, but they are nonetheless believed to be reliable.

<sup>2</sup> An unattributed contemporary account.

Listed in ‘Parish Stocks in Buckinghamshire’ in *Buckinghamshire Countryside*, vol.29, no.177 (Jan 1974), p.33.

*A colour photograph showing the stocks (© Dave Martin) is in the VLA Collection.*

**AYLESBURY #1**

*O.S. Map Ref: SP 82– 13–*

Stocks and Pillory

In 1664 the Baptist minister Benjamin Keach was accused of writing and publishing a seditious book. His arrest was caused by his fellow minister Thomas Disney, who started the process after writing ‘to his honoured friend Luke Wilkes, esqre, at Whitehall’ saying ‘This Primmer owned by Benjamin Keach as the Author and bought by my man George Chilton for five pence of Henry Keach of Stableford Mill neare me, a miller; who then sayd that his brother Benjamin Keach is author of it, and that there are fiveteen hundred of them printed. This Benjamin Keach is a Tayler, and one that is a teacher in this new-fangled-way and lives at Winslow a market town in Buckinghamshire. Pray take some speedie course to acquaint my Lord Archbishop his Grace with it, whereby his authoritye may issue forth that ye impression may be seized upon before they be much more dispersed to ye poisoning of people; they containing schismaticall factions and hereticall matter. Some are scattered in my parish, and perchance in no place sooner because he hath a sister here and some others of his gang, two whereof I have bought up. Pray let me have your speedie account of it.’

As a result of Disney’s action, Keach was sentenced to ‘go to gaol for a fortnight without bail or mainprise; and the next Saturday to stand upon the pillory at Ailsbury for the space of two hours, from eleven o’clock to one, with a paper on your head with this inscription: *For writing, printing and publishing a schismatical book, entitled ‘The Child’s Instructor; or, a New and Easy Primmer.’* And the next Thursday so stand, and in the same manner and for the same time, in the market of Winslow; and there your book shall be openly burnt before your face by the common hangman, in disgrace to you and your doctrine. And you shall forfeit to the King’s Majesty the sum of £20, and shall remain in gaol till you find securities for your good behaviour and appearance at the next assizes, there to renounce your doctrine and to make such public submission as may be enjoined you.’

Keach stood twice in the pillory. His book was burnt and his fine paid, but he never recanted.

The original Aylesbury stocks were the subject of a complaint before the justices in 1699. A fellow justice stated that being “placed under a mudd wall tyled that incloses the garden belonging to his Mansion and that by the help of the said stocks, persons may with great ease climb over the said wall into his garden, and not only Robb his garden but his Mansion house, stables, and outhouses which is a very great annoyance and unsafety to him and his family.” After this appeal the stocks were moved.

**AYLESBURY #2**

*O.S. Map Ref: SP 82– 13–*

Stocks (with whipping post)

Located in the Buckinghamshire County Museum.

The stocks and whipping post were originally located in Marlow but were moved to Aylesbury for safe-keeping.

Stocks – They consist of two wooden end-posts set into the ground, one of which is of medium height and the other taller with wrist-irons. The two wooden stock-boards (containing 4 leg-holes) are much repaired and composed of several separate sections joined together, and the lower stock-board resting on a longitudinal timber. It is hinged at one end.

Whipping Post – It contains two double wrist-irons set on the taller of the two wooden end-posts of the stocks.

**BURNHAM**

*O.S. Map Ref: SU 931 824*

*Device: Stocks*

*Date Constructed: Unknown*

*Listed:*

*Dimensions (metres):*

*Location: On the south side of Church Street, opposite the Market Hall (demolished).*

*Extant:*

*Remains:*

*Demolished:*

*Conservation Area:*

The stocks stood outside the Cage (*see: Burnham Lock-up*). In L. Hassell’s drawing dating from the late eighteenth or early nineteenth century, the stocks are shown as being about 1.200 metres wide, have 1.000 metre high end-posts, and contain four leg-holes.

**DINTON**

*O.S. Map Ref: SP 76– 10–*

Stocks and whipping-post

Located on the little green, beneath a roof canopy.

*Demolished:*

*Conservation Area:*

**MARLOW**

*O.S. Map Ref: SU 84– 86–*

Stocks

The stocks have been moved to the Buckinghamshire County Museum, at Aylesbury.

In 1685, a complaint was presented to the court that John Law, petty constable of Marlow, had been “malitious and vexatious in troubling his neighbours, under the pretence of his said office.” It was proved that he “did lately seiz and take into his custody out of the Crowne Inn in Great Marlow one John Oxlade, and did lay or sett in the stocks in the publique markett place att or about 8 of the clock at Night, tho it alsoe appeared to this Court that the said John Oxlade is a person of Civill life and conversation and att that time was not in any wise disorderly or abusive to any person, neither had he dranck one flaggon of beer.” John Law lost his job.

**QUAINTON**

*O.S. Map Ref: SP 74– 20–*

Stocks

Located near the old Market Cross on the Green.

One of the last occupants was an old and eccentric schoolmaster and one-time parish clerk named Wheeler. Unduly fond of drink, he was also the local scribe and poet. Another occupant was a tinker who, after “residence” in the stocks always claimed them as his ‘freehold,’ and never failed to visit them when passing through the village.

**THORNBOROUGH**

*O.S. Map Ref: SP 74– 33–*

Stocks

*A modern postcard showing two men incarcerated in the stocks—a facsimile copy of the c. 1908 card—is in the VLA Collection.*

**WINSLOW**

## Pillory

In 1664 the Baptist minister Benjamin Keach was pilloried at Winslow (*see*: Aylesbury).

**CAMBRIDGESHIRE****CHATTERIS**

*O.S. Map Ref: TL 39– 85–*

## Stocks

Located inside the Museum.

The stocks are mobile and set on a four-wheeled (one is a recent replacement) trolley-base. At the front of the cart is an iron towing hook, probably used for drawing by horse. It has what amounts to two sets of stocks positioned either side of a wooden partition. Three wooden posts (one in the partition and one each either side of it) support a wooden seat, and three similarly placed support the wooden stock-boards. The two top stock-boards are hinged from the central post, and are secured by a hasp on the outer end to a staple on the lower stock-board. Each stock contains 2 leg-holes, making four in total, and the whole device is painted black.

**FENSTANTON**

*O.S. Map Ref: TL 315 685*

## Stocks

Located inside the lock-up (known locally as The Clock House) at the bottom of High Street.

**MELDRETH**

*O.S. Map Ref: TL 375 465*

## Stocks (and whipping post)

Located on Marvell's Green (beneath a large Chestnut tree and next to the stone base of an ancient praying cross), on the junction of Fenny Lane and Manor Road.

Stocks – The stocks are an 1833 replacement, and were erected at a cost of £3.2s. They were last used in the 1860s when one of the locals was placed in them for brawling in church.

Whipping Post – The present whipping post was erected in 1782 at a cost to the parish of one shilling. It has six low-level wrist-irons.

*A sepia-tone postcard (postmarked 1920) of the stocks is in the Dave Martin Collection. A photo-touched black and white postcard showing the stocks and whipping post is in the VLA Collection.*

**CHANNEL ISLANDS****CHESHIRE****ALDFORD**

*O.S. Map Ref: SJ 42– 59–*

## Stocks

Located on the Chester Road, opposite the Grosvenor Arms, and filling a gap in the stone wall.

The stocks consist of two large stone end-posts and two wooden stock-boards (each consisting of two pieces), with two crude hasps and staples (one at each end) and containing 4 leg-holes.

**BARTON**

*O.S. Map Ref: SJ 45– 54–*

## Stocks

Located on the south side of Farndon Road.

The stocks consist of two stone end-posts, and two wooden stock-boards containing 2 leg-holes. There is no iron-work. Although the stocks were constructed in the late 1970s as a replica of an earlier set of stocks inadvertently removed during

road-making operations, the wooden stock-boards are already covered with green algae.

*O.S. Map Ref: SX 40– 54–*

## Stocks

**BODMIN**

*O.S. Map Ref: SX 06– 67–*

## Stocks

Located inside the Musuem.

The stocks comprise two wooden stock-boards measuring nearly 3½ metres in length, supported at either end on wooden feet, and containing 12 leg-holes. The stock-boards are slightly worn at one end and have affixed to each end two corroded metal strengthening plates. They are hinged at one end, and have a large staple at the other, for which the hasp is now missing. They have been painted with a dull-coloured red paint which is scratched and worn. A notice correctly heralds that these are the largest stocks in the West.

**BOTUSFLEMING** *O.S. Map Ref: SX 40– 61–*  
Stocks

**CAMELFORD** *O.S. Map Ref: SX 10– 83–*  
Stocks  
Located inside the North Cornwall Museum.

The stocks are owned by the Camelford Town Trust. They comprise two wooden stock-boards which measure almost 2 metres in length and 80mm thick, and contain 6 leg-holes (2 large, 2 medium, and 2 small). They are supported on one wooden foot—the second is missing—and have a hinge at one end and a crude type of hasp and staple at the other. The stocks are painted brown, and the paint is flaking off.

**CARDINHAM** *O.S. Map Ref: SX 12– 68–*  
Stocks

**CRANTOCK** *O.S. Map Ref: SW 79– 60–*  
Stocks

*Two black and white postcards (c. 1950s/1960s) showing the stocks are in the Dave Martin Collection. Two black and white postcards (one a Frith card and the other a detail photocard) showing the stocks and the tablet of stone are in the VLA Collection. A further hand-coloured postcard (postmarked 15<sup>th</sup> July 1915) showing the stocks beneath the covered canopy (but without the stone tablet) is in the VLA Collection.*

Pictured in each postcard is a large tablet proclaiming that: “The last man in Crantock stocks (circa 1817) was William Tinney of West Pentire, a smuggler’s son and a vagabond. He robbed, with violence, a widow woman of Cubert Parish, and was placed to abide justice in Crantock Stocks, then standing in the church tower. By negligence or design he was insufficiently secured and shortly afterwards appeared on the top of the tower. He had cut the rope from the tenor bell and by this he lowered himself to the Nave roof, climbing to the eastern gable of the choir and sliding down it, he dropped to the churchyard grass, and in the sympathetic view of certain village worthies bolted, got off to sea and was never brought to justice or seen in the neighbourhood again.

This record was taken down in April 1896 by George Metford Parsons, vicar, from the testimont [sic] of Richard Chegwiddden of Crantock, he then being 88 years of age and well remembering as a witness the events described.”

Beneath the carved frieze is the poem:

“ paid my price for finding out,  
Nor ever grudged the price I paid.  
But sat in clink without my boots  
Admiring how the World was made.”

**EAST LOOE** *O.S. Map Ref: SX 25– 53–*  
Stocks  
Located inside the Museum.

**FEOCK** *O.S. Map Ref: SW 82– 38–*  
Stocks  
Located inside the porch to the little Parish Church of St. Feock.

The stocks contain 7 leg-holes, no two adjacent holes of which are the same size.

**DERBYSHIRE**

BIRCHOVER *O.S. Map Ref: SK 240 618*  
Stocks (restored)

Located to the south of the village on the old lane to Winster, in an area known as Upper Town—this is presumably the same as the photograph (probably 1950s) of "Clee Heathcote in Uppertown Stocks" pictured in 'When justice was seen to be done' in *Peak Advertiser*, 12th February 1996, p.15.

The stocks consist of two stone end-posts with slots in which a pair of wooden stock-boards are set. The stocks are a single-seater and the stock-boards contain only two holes. The photograph in *Peak Advertiser* show a hasp and staple fixed centrally on the stocks.

In mid-1925, the stocks had been reduced to the two stone end-posts (slotted).

CHAPEL-EN-LE-FRITH *O.S. Map Ref: SK 05– 80–*  
Stocks

Located near the Church in Market Square (once called the Town Gate, on the Medieval road running from Yorkshire and

continuing to Eccles Pike, Cheshire), off the High Street, outside *Ye Olde Stocks Cafe*.

The stocks incorporate two stone end-posts and a two pairs of wooden stock-boards, each with four holes, and a stone seat. The stocks are said to be Cromwellian and have been restored on many occasions since.

The local guidebook records that in November 1920, a charabanc chartered by the local authority crashed into the stocks, resulting in one of the end-posts leaning at an angle of 45°.

*A postcard (postmarked 1922) and a multi-view coloured postcard (c. 1910 and also showing the Old Cross Chapel) showing the stocks and seat are in the Dave Martin Collection. A black and white postcard and transparency (© Dave Martin) showing the stocks are in the VLA Collection.*

## Stocks

Located inside the Museum.

The stocks consists of two wooden stock-boards (formerly painted dark grey but now mostly worn away) containing 4 leg-holes. The lower element is split longitudinally. Affixed to the bottom of it is a pair of modern wooden feet (varnished). An early illustration shows that at one time the stocks were held upright by means of short iron stakes driven into the ground.

## DORSET

**BLANDFORD FORUM** *O.S. Map Ref: ST 88– 06–*

Pillory  
Located beneath the Town Hall.

**CERNE ABBAS** *O.S. Map Ref: SS 66– 01–*

Stocks  
Located outside the church, in Abbey Street.

The stocks comprise two wooden stock-boards containing 4 leg-holes (1 small and 3 medium), both of which have been repaired, and supported on two decayed feet. At one end is a hinge, and a lock at the other consisting of two vertical iron bars, one of which has a hinged clasp at the top and the other a ring for a padlock. Near to the hinge are two iron bars with rolled ends, whose function is probably to provide additional support for the hinge.

The stocks are chained to a ring-bolt set in concrete.

**CHARLTON MARSHALL** *O.S. Map Ref: ST 90– 04–*

Stocks  
Located against the south wall of the church tower.

Set beneath a roof canopy, the stocks consist of two wooden stock-boards with bevelled edges, and containing 4 leg-holes. The stock-boards are set on wooden feet attached to a secondary timber. The woodwork appears to be fairly recent. A continuous iron band is fixed to the upper stock-board and is connected to a hinge at one end and a hasp at the other. The staple is attached to the bottom stock-board.

**CHRISTCHURCH** *O.S. Map Ref: SZ 15– 92–*

Stocks  
Located in the grounds of the ruined Castle, by the Castle Street entrance.

The stocks consist of two wooden end-posts, each with a slot set ready to contain the two wooden stock-boards. The stock-boards contain 4 leg-holes and have a central hasp and staple. The woodwork is fairly new and made of softwood, confirming that the stocks are replacements.

Behind the stocks is a stone seat, and two paving slabs are set beneath the lower stock-board.

## CORFE CASTLE

*O.S. Map Ref: SZ 15– 92–*

Stocks and Pillory (demolished)  
Located in the Market Square, opposite what is now the Tea Rooms.

Corfe Castle has enjoyed the right of a market since King John granted the privilege. The stocks and pillory were first recorded here in 1586.

## KINSON

*O.S. Map Ref: SZ 071 966*

*Device:* Stocks

*Date Built:* 1968

*Listed:*

*Dimensions (metres):*  $w = 1.5$ ;  $b = 0.6$

*Location:* On the village Green (next to the Library) between Pound Lane and Millhams Road.

The stocks consist of a pair of wooden stockboards set between two pairs of wooden end posts, and containing four leg holes. The stocks are believed to have been commissioned by the local Rotary Club and made by the Parks Department of Bournemouth Borough Council. They were paid for by the council, although the cost has not been disclosed. Behind the stocks is a municipal wooden seat.

The village Green was opened in 1968 by the Deputy Mayor Philip Whitelegg and his wife Dorothy, who were pictured by the stocks in the local *Evening Echo* newspaper. The stocks are purely decorative and have never been used for punishment purposes. But despite being so new, the stocks are already showing signs of wear and missing one of the end fastenings.

*Owner:* Bournemouth Borough Council, Town Hall, Bourne Avnue, Bournemouth.

(Bournemouth)

## DURHAM

**BARNARD CASTLE** *O.S. Map Ref: NZ 06– 17–*  
Stocks  
Located inside the Bowes Museum.

The stocks consist of a pair of iron stock-boards containing 4 leg-holes (2 large and 2 medium), hinged at one end and with a locking staple at the other.

The original location of the irons is unknown, although the Antiquities Officer at the Museum suggests that they may have been in or near the Buttermarket—which was also used as a prison—in the town centre.

The stocks are on indefinite loan from Barnard Castle Urban District Council.

**MIDDLETON-IN-TEESDALE** *O.S. Map Ref: NY 94– 25–*  
Stocks

Located in Seed Hill, opposite the entrance to St. Mary's Church.

The stocks were made of iron and the remnants are set at the base of the Market Cross.

*Two transparencies of the stocks (© Dave Martin) are in the VLA Collection.*

**ROMALDKIRK** *O.S. Map Ref: NY 99– 22–*  
Stocks  
Located on the Middle Green, opposite the Rose and Crown Hotel.

## EAST RIDING OF YORKSHIRE

**BEVERLEY #1** *O.S. Map Ref: TA 03– 39–*  
Stocks  
Located in the “Old Flemish Priests’ Room” of St. Mary's Church.

The original ‘Town Stocks’ used to stand in the Market Place, and were last used in or about 1832. They contain two wooden end-posts set on massive feet which extend to the rear and support a wooden seat. The two wooden stock-boards contain 4 leg-holes and have attached a hinge at one end and a hasp, staple and padlock at the other.

*A sepia-tone postcard showing the stocks (c. 1910) is in the Dave Martin Collection.*

**BEVERLEY #2** *O.S. Map Ref: TA 03– 39–*  
Stocks  
Located in the Art Gallery

These are a replica of the original ‘Town Stocks’ (see: Beverley #1 above), and are an exact copy, except that the uprights are braced to feet which are more elegant than the original. Otherwise, they too contain two wooden end-posts set on wooden feet which extend to the rear and support a wooden seat. The two wooden stock-boards also contain 4 leg-holes and have attached a hinge at one end and a hasp, staple and padlock at the other.

The stocks are owned by Beverley Borough Council.

## EAST SUSSEX

**HEATHFIELD** *O.S. Map Ref: TQ 58– 21–*  
Stocks

Lost, long ago, the stocks used to stand at the corner opposite the farmery of Heathfield Park. When they were used to punish an innocent man, the angry villagers forced the stocks from their base and threw them down a well in the adjoining meadow.

**LEWES #1** *O.S. Map Ref: TQ 41– 10–*  
Stocks  
Located inside the Museum.

**LEWES #2** *O.S. Map Ref: TQ 41– 10–*  
Stocks (with whipping post)  
Located inside Lewes Castle.

*A sepia-tone postcard showing the stocks and whipping post (c. 1912) is in the Dave Martin Collection. A glossy sepia postcard dated 18<sup>th</sup> June 1926, and a black and white card c. 1930, showing the stocks, whipping post and bench seat are in the VLA Collection.*

**NINFIELD** *O.S. Map Ref: TQ 707 124*  
Stocks (with whipping post)

Located on the A271 (towards Boreham Street), near the Church.

Stocks – Made of cast and wrought-iron, possibly at Ashbournham in the days when a furnace and large forge flourished there. It contains four leg holes. It was on this spot that in 1790 a man sold his wife for half-a-pint of gin. In accordance with tradition, she was accompanied by two witnesses and with a halter around her neck. A contemporary report noted that “she appeared mightily delighted about the ceremony, and the hopeful pair departed filled with joy and expectation from their happy union.”

Whipping Post – Like the stocks, the post is made of cast and wrought-iron, and again possibly at Ashbournham in the days when a furnace and large forge flourished there, and contains four wrist clamps.

**ROTTINGDEAN** *O.S. Map Ref: TQ 36– 02–*  
Whipping Post

In Swinfen and Arscott's book *Hidden Sussex* is the quote: “There is a Whipping Post Lane, where a now-vanished tree in front of Whipping Post House was used for tying up offenders in readiness for public whipping.”

**RYE** *O.S. Map Ref: TQ 922 203*  
Pillory  
Located in the Town Hall.

**ESSEX**

*A hand-coloured postcard showing an unidentified set of 'Old English Stocks' next to a fingerpost (marked with the Essex towns of Brentwood and Romford) is in the VLA Collection.*

**CANEWDON**

O.S. Map Ref: TQ 90– 94–

Stocks (with whipping post)

Located inside the lock-up, by the east entrance of the churchyard.

Stocks – At one end of the stocks is a tall wooden end-post with the date 1773 engraved on one side, and a ball newel cap, while at the other end the bottom stock-board sits on a short mitred post. Although both posts were originally set into the ground, they now stand on recently constructed wooden feet set into the gravel base. The two wooden stock-boards contain 6 leg holes, and sit on a third board between the two end-posts; the upper stock-board is cut vertically and is repaired with an iron plate. An iron band runs along the top of the upper stock-board to a hinge attached to the tall end-post, and a hasp, staple and padlock at the other.

Whipping Post – The tall end-post contains two screw-holes suggesting that it was also used as a whipping post.

**GREAT CANFIELD**

O.S. Map Ref:

Stocks (lost) and Whipping Post

Located on the village Green, although they were originally at Hellman's Cross.

The *Exhibition Information Sheet*, for Great Canfield (1960) states that the name 'Canfield' derives from Cana's Field, although at the time of Domesday it was known as Canfelda, and later as Canefield and Castrum, and Much Canfield. The village stocks are said to have been last used in 1860 to punish a local man for drunkenness.

**HAVERING-ATTE-BOWER**

O.S. Map Ref: TQ 51– 93–

Stocks and whipping post

Located on the village Green.

The stocks are mentioned in Sir John Betjeman's poem *Essex*:

And as I turn the colour-plates  
Edwardian Essex opens wide,  
Mirrored in ponds and seen through gates  
Sweet uneventful countryside.

Like streams the little by-roads run  
Through oats and barley round a hill  
To where blue willows catch the sun  
By some white weather-boarded mill.

“A Summer Idyll Matching Tye”  
“At Havering-atte-Bower, the Stocks”

And cobbled pathways lead the eye  
To cottage doors and hollyhocks.

*Two sepia-tone postcards showing the stocks (c. 1906 and 1911) are in the Dave Martin Collection. A hand-coloured postcard showing the stocks and whippingpost by the side of the road beneath a large oak tree, and a close-up black and white postcard of the same view, are in the VLA Collection.*

**GLOUCESTERSHIRE****CHACELEY**

O.S. Map Ref: SO 85– 30–

Stocks

Located in the Parish church.

The stocks consist of two wooden end-posts of medium height and each set on feet. The two wooden stock-boards are set some distance above ground level and contain 6 leg-holes (4 large

and 2 small). There is a hinge at one end and a crude type of hasp and staple near to the other.

The height of the holes would suggest that the felon sat on a bench behind the stocks, so that he and his feet were at the same level.

### CHARLTON KINGS

*O.S. Map Ref:* SO 96... 21...

*Device:* Stocks

*Date Built:*

*Listed:*

*Dimensions (metres):*

*Location:* On a small green in New Street, near to the church.

*Extant:*

*Remains:*

*Demolished:*

*Conservation Area:*

The stocks are set beneath a canopy roof, and contain two wooden end-posts set in the ground with concrete. One of the end-posts is tall, while the other is short and grooved to allow the top stock-board to rise and close. The two wooden stock-boards contain 6 leg-holes, and are hinged off the taller of the end-posts. A continuous iron band along the top stock-board connects with the hinge and with the hasp on the small end-post. The staple (and padlock) is attached to the smaller of the end-posts.

At one time during the early years of the twentieth century, the canopy was missing. At that time the two stock boards also look new, suggesting that they were restored about that time.

*A black and white postcard showing the stocks and whipping post is in the VLA Collection.*

### FORTHAMPTON

*O.S. Map Ref:* SO 85– 32–

Stocks (with whipping post)

Possibly located in the churchyard.

*A heavy-drawn postcard (c. –?) showing the stocks and whipping post in the churchyard is in the Dave Martin Collection.*

### GLOUCESTER

## GREATER MANCHESTER

### ASHTON-UNDER-LYNE

*O.S. Map Ref:* SJ 93– 99–

Stocks (with whipping post)

Located in Stamford Park, near to the conservatory.

Stocks – The stocks consist of two stone end-posts—one modified for use as a whipping post, and the other heavily repaired with its upper section encased in a cast-iron box, and strengthened below with a vertical metal post—and two wooden stock-boards containing 4 leg-holes and central hasp (decayed), and held together by an iron band set inside each end-post.

Whipping Post – One of the stone end-posts of the stocks has been modified for use as a whipping post, with horizontal grooves for the wrists on the front and rear faces. Above and below the grooves is a hole with a lead insert in which was held the wrist-irons and staples.

**ASHTON-UPON-MERSEY** *O.S. Map Ref: SJ 772 930*

## Stocks

Located behind railings in the churchyard wall of the Church of St. Martin.

The stocks are mobile, and consist of a rectangular frame on four wooden wheels, with iron band tyres. At each end is a wooden post, shaped like a spatula. Two horizontal elements occupy the centre: the lower is a wooden stock-board with the lower half of the 8 leg-holes cut out; and the upper is an iron strap (in two halves and hinged at the centre) shaped to provide the top of the leg-holes. At each side is a hinged wooden seat with bent-iron feet. The restricted space within the recess requires that the seats must be folded inwards.

The stocks are owned by Trafford Borough Council.

**BRAMHALL** *O.S. Map Ref: SJ 89– 85–*

## Stocks

Located in the courtyard of Bramhall Hall, and formerly at Bramhall Green.

The stocks consist of two stone end-posts with a tooled pattern of horizontal grooves cut in the surface of the stones, both of which are flaking in places and showing the red sandstone beneath. The two wooden stock-boards, which contain 4 leg-holes, are prevented from movement by a cement filling in the slots carved in the end-posts. The top stock-board has an iron band fixed along its top, and has a staple attached centrally by four large bolts.

*A sepia-tone postcard (c. 1905) showing the stocks (unnamed) with two boys incarcerated, above which is the testament "We won't go home till morning" is in the Dave Martin Collection. Also in the Dave Martin Collection is a postcard (postmarked 1905) showing the stocks. An early colour postcard showing the stocks is in the VLA Collection.*

Conservation Area: 

Dimensions (metres):

**Location:** Opposite the Bat and Ball Hotel, on the side of the A338 Salisbury Road.

Until 1969 the stocks were located at a nearby road junction (30 metres further south in the school garden), but moved when the road was widened. They consist of two wooden end-posts with a narrow roof to their top and comprising two wooden boards (encrusted with lichen). Below the roof is set two wooden stockboards containing 4 leg-holes. An iron staple and several holes at the top of one of the end-posts indicates that it was also used as a whipping post. There is no other surviving iron-work.

The first reference to the stocks is in the Court Rolls of 1584 when John Welfe was put in the stocks for 2 hours for being a 'common felon'.<sup>5</sup> Various eighteenth and nineteenth century references are made to the repair of the stocks by a local carpenter, the last of which was recorded in the Constable's Account book of 1852.<sup>6</sup>

In 1986, the stocks were severely damaged by a lorry which crashed into them and left *in-situ* only the bases of the wooden end-posts: these have now been renewed. The other pieces were rescued and stored by Mr D. L. Stock (owner of Wheelwrights Cottage), and in 1987 were repaired and reinstated by him.

The whipping-post, though once attached to the stocks, has now been lost. There are various references to the device in the Constable's Account books of the eighteenth and the nineteenth century, such as:

1788 Samuel Hobbs for the Whipping-post 12s.  
1852 Mr. Samuel Hobbs for new Whipping Stocks £1.15s.0d.

*Listed:* II *Conservation Area:*   
*Dimensions (metres):*  
*Location:* Outside the north wall of the churchyard, beneath a canopy roof, in a place known as 'The Bury.'

The stocks are formed with one 1.800 metre and one 1.400 metre high end posts supported on splayed feet. Set between the end-posts are two wooden stockboards measuring 1.800 metres in length, and containing six leg-holes: the boards slide up and down grooves in the end-posts. The wrist-irons for the whipping-post, of which there are three different sizes, are fixed to the taller of the two end-posts.

Prior to 1905 the stocks were set against the north wall of the Bridewell, and before that (date unknown) in Market Place in the centre of the High Street. The Will Godson map of 1739, however, shows the stocks in yet another location opposite the pond in North Warnborough (*O.S. Ref:* SU 730 518), close to Odiham Castle.

*Owner:* Odiham Parish Council.

*Reference:*

<sup>14</sup> BRADBROOK, Dr William, *Inkberrow Parochial Records of Local Government in 1657*, Bletchley (1903): a written account of Dr Bradbrook's lecture to the Worcester Diocesan Architectural and Archaeological Society on 16<sup>th</sup> December 1902.  
<sup>15</sup> BRADBROOK, Dr William, *Op.Cit.*

The Goodrich Manor Court Minute Books include the following entries about the Pencreck stocks and whipping-post:

COURT LEET HELD 25<sup>TH</sup> MAY 1766:

'Was presented Thomas Hall, Constable for the Township of Pencreck and Glouston for not keeping the Stocks and Whipping Post in repair and do fine him twenty shillings if not repaired within one month.'<sup>16</sup>

COURT LEET HELD 15<sup>TH</sup> OCTOBER 1766:

'Was presented that the Stocks and Whipping Post in the Townships of Goodrich, Pencreck and Glewston, presented at the last court, are made up.'<sup>17</sup>

## RIPPLE

*O.S. Map Ref: SO 87- 37-*

Stocks

Located by the Market Cross.

*A black and white postcard (postmarked 1903) and another postcard (the date 1918 is pencilled on the back) showing the stocks and market cross are in the Dave Martin Collection.*

## ROCK

*O.S. Map Ref: SO 731 712*

*Device: Stocks and Whipping-post*

*Date Built: 1782 and 1773 (respectively)*

*Listed:*

*Dimensions (metres):*

*Location: Inside Rock Church.*

*Extant:*

*Remains:*

*Demolished:*

*Conservation Area:*

The stocks and whipping-post were moved in to the Church from the Churchyard wall in order to prevent further vandalism.

STOCKS – The stocks consist of two oak end-posts which stand 1 metre high and 1.4 metres apart. The 1.9 metres long stockboards have six leg-holes, the lower of which is 150mm deep, and the upper one 200mm deep. The top stockboard is secured to one end-post by a hasp and padlock.

The stocks were made by John Wainwright in 1782, and paid for by the Vestry. They presumably replaced an earlier set because it would be unusual to find a whipping-post pre-dating the stocks. They are said to have been last used in 1860.

WHIPPING-POST – The oak post stands at 1.5 metres tall with a shaped cap, and has two iron clamps on each of two faces. Both clamps are set at 0.3 metres below the cap, and are padlocked at their base.

The whipping-post was made by John Wainwright in 1773, and paid for by the Vestry. It is said to have been last used in 1860.

*Owner: Rock Parish Council.*

*Keyholder: The key to the Church is available from the house opposite.*

## ROSS-ON-WYE

*O.S. Map Ref: SO 599 241*

## HERTFORDSHIRE

### ALDBURY

*O.S. Map Ref: SP 96... 12...*

*Device: Stocks and Whipping-post*

*Extant:*

*Remains:*

*Date Built:* pre 17<sup>th</sup> century *Demolished:*   
*Listed:* II\* *Conservation Area:*   
*Dimensions (metres):* See below.

*Location:* On the village Green, beside the pond, on the west side of Stocks Road (at the junction between Station Road, Toms Hill Road, Trooper Road and Stocks Road).

A set of stocks is known to have existed on the village Green at Aldbury for at least six hundred years. Little surprise then that they are perhaps the most well-known set of stocks in Britain. It is clearly held in high regard and with high pride by the people of the charming village.

The device consists of two oak end-posts, one of which is taller than the other and houses the wrist irons that form the whipping-post. Both end-posts are grooved to allow the top stockboard to move during the incarceration and release of a felon. The oak stockboards, though quite worn, show that four leg-holes were provided, and contain a sturdy hasp and staple for securing the stockboards in to position. As the two stockboards are raised above the ground, it suggests that a wooden bench was at one time set behind the stocks for the felon to sit on, but this has now gone. The wrist irons on the taller of the end-posts may have been repeated lower down with a second set, though there is no proof of this.

The following list of amazingly detailed dimensions have been supplied for use in this survey:

- Height of taller end-post (south) above ground 1,650mm
- Height of shorter end-post (north) above ground 1,170mm
- Size of timber used for end-posts 185mm
- Length of stockboards between end-posts 1,410mm
- Maximum depth of top stockboard 200mm
- Minimum depth of top stockboard 185mm
- Maximum depth of bottom stockboard 200mm
- Minimum depth of bottom stockboard 125mm
- Height of slot in tall end-post 1,030mm
- Height of slot in short end-post 280mm
- Width of slot in tall end-post 40mm
- Width of slot in short end-post 70mm
  
- Size of bolt heads, square 20 and 30mm
- Size of bolt heads, round 10 and 15mm
- Thickness of metal plates: top and verticals 8.5 and 4.5mm
- Metal bar on top stockboard returns down taller end post 290mm
- Originally two small metal hooks on bottom stockboard (now only one) projects 40mm and 325mm deep
- Metal bar on top stockboard returns down short end-post 280mm

**WHIPPING-POST**

- Overall height of metal – whipping-post 390mm
- Width of metal – whipping-post 45mm
- Semi-circular space for hands: top (h. x w.) 65 x 60mm
- Semi-circular space for hands: bottom 70 x 70mm
- Top of metal anchored by staple, set at angle.
- Bottom of metal fits over another staple which would have been secured by padlock? Now bolted in.
- Metal hook on south side of end-post: height 40mm
- Metal hook on south side of end-post: width across hook 40mm

Among the early references for the stocks is an entry in the Court Roll of 1764, at which the parish ‘Presents that the stocks belonging to the Parish of Aldbury is out of order, and that the inhabitants ought to repair the same.’

Among the people who remembered the stocks were John Dolt, a shopkeeper, who died in 1893. Dolt often told that he

remembered the stocks being put in place, but were presumably one of the many replacements that have occurred through the centuries. He also remembered them being used on two occasions when he was a boy. One such occasion was when a Victorian lady by the name of ‘Mrs Gordon, who lived at Stocks House and was a great lady, was driving through the village and a man hooted after her carriage. She immediately stopped and ordered him to be put in the stocks, which was accordingly done.’<sup>18</sup> In 1835, he took three men to put James Holland in to the device.

The last person to be put in the stocks was Joe Mundy, who died in 1898, and was so proud of the fact that he told everyone. His crime was the usual drunkenness.

Like many timber devices, the stocks have been repaired on a number of occasions. In 1921, Messrs Honours of Tring, under the direction of Mr C. H. B. Quennell, FRIBA and a member of the SPAB, dried and treated the timbers and bedded them in concrete, eliminating the need for the brace stabilisers. In 1970, Mr Will Crawford, a village carpenter, removed the whole unit and spliced in a new base section to each of the end-posts. A sign beside the stocks now says that it is an ‘ANCIENT MONUMENT – DO NOT TOUCH’.

*Three sepia-tone postcards showing the stocks (one c. 1906; two c. 1930s) are in the Dave Martin Collection. Among the illustrations in the VLA Collection are copies of the following: a drawing showing the stocks beneath the tree canopy (c. 1831); a photograph of the stocks, pond, Manor House, and numerous women and children standing about (c. 1880); a line drawing (dated 1889); a photograph with two men leaning on the top stockboard (c. 1900); a photograph of a woman standing beside the whipping-post (c. 1905); a photograph with a policeman and a group of friends standing beside two drunken companions in the stocks (c. 1920); a photograph of a beer tasting with a large crowd around the stocks (c. 1935); and a modern colour postcard of the Manor House and stocks (purchased in 1997).*

O.S. Map Ref: ... ..

Device: Pillory

Date Built: pre 1409

Location: Unknown.

Extant: Remains: Demolished: 

A pillory and cucking stool are both referred to in the View of Frankpledge taken at Pentecost, 1409. Two accounts also date from this period:

1535 William Naylor was paid 2s.2d. to repair the Cockynge Stool.<sup>21</sup>

1542 Stocks, Cockynge Stool and Pillory to be 'newly made' by order of the Manor Court.<sup>22</sup>

In 1598, the Stevenage Liberty belonged to the Bishop of London, and had both a pillory and gallows but how far the

power to execute extended was not known.<sup>23</sup> Stevenage was also one of eight manors that had a gallows and a tumbrel.<sup>24</sup>

**ISLE OF MAN****ISLE OF WIGHT****BRADING**

O.S. Map Ref: SZ 60... 86...

Device: Stocks

Date Built:

Listed:

Dimensions (metres):

Location: At the top of the hill, near the church, beneath a restored building still called by courtesy the Town Hall, but which is now the Museum.

Extant: Remains: Demolished: Conservation Area: 

The stocks are now owned by the Brading Town Trust, and consists of two wooden stock-boards—the bottom corners of which have been repaired—containing 5 leg-holes, and supported on two feet. Inscribed on the lower stock-board is the date 1750, and the letters 'MC' and two other letters too faint to identify. The two stock-boards are hinged at one end and locked at the other with a hasp, staple and padlock. The stocks have been painted with thick brown paint which is flaking off in places.

An early 'Official Guide' to Brading (priced 1/-), described the Old Town Hall as a "small, reddish-coloured building with barred gates underneath by the Church. Here can be seen the famous Brading Stocks, which bear the date 1750, but which were used centuries before that. The town records, for example, contain an entry in 1555 'We present the wife of John Scarvell for drawing blood upon the bailey Beale for which puniebater in Cippes.' (Punished in the Stocks). Here also can be seen the whipping-post, and the lock-up used in former times. The room above stores the ancient records of the Town. The first Brading Charter was granted about 1280 by Edward I, and the second charter of 1547 granted by Edward VI is still preserved; the other town records go back to 1551. From here the town was governed by its corporate officers, consisting of Senior and Junior Bailiffs, thirteen Jurats, a Town Clerk, a Hayward, and two constables, who were elected yearly in October. The common seal is encircled with the words 'The King's Towne of Bradyng' around the Tudor rose..."

*In the Dave Martin Collection is a coloured postcard (c. 1906) showing the stocks with a man incarcerated in them; and four postcards (one c. 1908, one difficult to date, one sepia-tone card c. 1930s, and one marked "visited August 19th 1958" on the back), all showing the stocks. A black and white postcard of the stocks, and a hand-coloured postcard (postmarked 29<sup>th</sup> July 1913), and a glossy sepia-tone postcard are all in the VLA Collection.*

Stocks (with whipping post)  
Located in Market Street, by the base of the Market Cross.

Stocks – The stocks consist of two wooden end-posts, both of which have been heavily repaired and capped with a metal plate. One end-post is taller than the other and contains the single wrist-iron for use as a whipping post. The two stock-boards are decayed, and contain 4 leg-holes. They also have a hasp and staple near one end, and a hinge at the other. The stocks used to stand on gravel but during the early 1980s, the gravel was replaced by slate slabs. The result is that the lower stock-board and the hasp and hinge are now half-buried beneath ground level, an act that will only hasten their decay.

Whipping Post – The taller of the two wooden end-posts has fixed to it the single wrist-iron by means of a metal strap and staple.

*A coloured postcard showing the stocks and market cross (c. 1909) is in the Dave Martin Collection. A hand-coloured postcard (postmarked 31<sup>st</sup> January 1906) showing the stocks and the market cross is in the VLA Collection.*

Stocks  
Located inside the parish church of St. Andrew.

Stocks – The village stocks used to stand outside the gates to the graveyard of St. Andrew’s Church. They are weather-beaten and are combined with a whipping post. The original stocks were provided in 1600 and put under the care of the Village Constable. The local journal of the Free School Master William Wright mentions no example of their use between 1847 and 1853 (presumably the time period of the journal), although he does mention a *‘Fine for calling the constable a liar, 2/- paid on the spot to the constable.’*

Whipping Post – The whipping post used to stand outside the gates to the graveyard of St. Andrew’s Church. It is now weather-beaten and combined with a set of stocks. A second whipping post exist(ed) in the new House of Correction, built in 1808.

A pub in West Street, facing the village Green, is called The Whipping Post PH. This is a recent name -in 1792 it was *The Sun Inn*, and by 1842 it had become *The Red Lion*, which it remained for over a century—and the pub probably has no connection with the punishment device.

Much amusement was caused in 1631 when an actor was found guilty of staging a performance of Shakespear’s *Midsummer-Night’s Dream*, and playing the part of Bottom (the weaver). The crime was that the performance took place on a Sunday, and was put on inside the Bishop’s Palace for the benefit of the Bishop and his houseguests. The actor’s punishment was a short spell in the stocks with an ass’s head and a handful of hay beside him.

**NORTHAMPTON**

*O.S. Map Ref:* *Extant:*   
*Device:* Stocks *Remains:*   
*Date Built:* Pre 1691 *Demolished:*   
*Location:* In the Market Square.

The earliest known mention of the stocks occurs in 1691, when the town's authorities paid two shillings (10p) for them to be removed from the Market Square and be sent for repair. From this it is reasonable to assume that the stocks had already been in existence for between fifty and a hundred years.

There are few references to their early use, other than in Northampton's fifteenth century *Book of Customs* which records that any fishmonger found guilty of selling bad fish could expect to be 'jugged unto the stocks openly in the market place.' Other references also occur in the minutes of the Quarter Sessions which record how people were still being committed to the stocks in the early part of the nineteenth century.

*References:*  
ANDREWS, W. [Ed.], *Bygone Northamptonshire*, Abel & Sons, Northampton (1891) pp.153-166.

**NORTHAMPTON**

*O.S. Map Ref:* *Extant:*   
*Device:* Pillory *Remains:*   
*Date Built:* Pre 1689 *Demolished:*   
*Location:* In the Market Square.

References to the Northampton pillory appear in the town's fifteenth century *Book of Customs*, a 148 folio manuscript recording the local customs and practices. Folio 47 documents that no butcher is to 'sellen sussemy flesshe fressh ne flesshe of a dede gote ne calidiouns of a shepe nor Nete nor hedys of calveren nor of Nete nor such manere of fowle thynges but under the pillorie. And if tho thynges ben I foundene in other stedis for to sellen be thei loste to the baillifz profite. And the susmy be geven to seke men of seynt Leorandis.' Elsewhere the document records that any miller found guilty of watering another man's corn while being milled by him, and thereby reducing its quality, was to be fined forty pence (17p). If he was caught more than twice, his sentence was increased to being 'judged to the pillory.' Any brewer found guilty of continually watering down his ale, i.e. making more than the regulated forty-eight gallons of beer from each quarter of malt, or who sold sub-standard ale according to the Ale Tasters, could be 'jugged to the cukkyng stole and afr to the Pelorye.'

In 1689, the minutes of Quarter Sessions record how the counterfeiter Thomas Smith of Kislingbury was imprisoned and ordered to be regularly set in the 'Pillory in the Publick Markett place in the Towne of Northampton for the space of one hour betwixt the houres of twelve and two in the afternoon with a writeing on his Brest declaring his crime and be from thence re-conveyed to Prison there to remain till the next Quarter Sessions of the Peace to be held for this county and till this court shall otherwise order.'

*Location:*

Stocks – The earliest known mention of the stocks occurs in the Towcester Constables' account book, which records the parish business between 1688 and 1727. It is obvious, however, that they had by then been in existence for some time. Those entries read:

1696. Oct ye 2, pd tto 2 men for Garding a Gipsee  
for shoating Benit sharpe. 6d.  
1689. April ye 29, Pd for watching 3 in ye stocks. 1s. 0d.  
1702. June 4, pd for watching drunken woman  
in ye stocks. £00. 00 04

Local legend tells of how in the middle of the eighteenth century, the arrival of a new set of stocks was clearly unpopular with those who were most likely to suffer them. After being set up in the town centre, they were for several nights watched by the constables who believed that an attempt would be made to remove and destroy them. When a number of nights had passed without any indication of trouble, the watch was removed. The very next morning, however, the constables woke to discover that the stocks had disappeared. A thorough search yielded nothing, and the secret of their removal was so well maintained by the perpetrators that no clue of their whereabouts could be established. Some years later, during a long and dry summer, the stocks emerged from the mud in the middle of the village pond.

The antics of the eighteenth century 'yobs' was nothing new. The Constables' Accounts for 11<sup>th</sup> March 1694 record the

payment of sixpence (2½p) for a 'warrant for them that brok the old stocks.' They go on to detail how the timber and 'culling' for the new stocks cost £1.0s.10d (£1.04) and that they had to be 'sette down' at a cost of 2s.10d. (14p).

Whipping Post – It is possible that the whipping post was attached to the stocks, although it is not known for certain. Details of it again appear in the Constables' Accounts:

1688.Sep 29, To going to Northampton with Meakins	
wife and 7 more witnesses.	2s.
To bringing her back.	1s.
To 2 Watchmen 2 nights and days and Beere.	4s.
To whipping Meakins wife and a whip.	1s. 2d.
1689. April ye 1, pd to keeping Henry Griffin.	£0. 0s. 6d.
Pd for whipping him.	£00. 0s. 6d.

## NOTTINGHAMSHIRE

### CAR COLSTON

O.S. Map Ref: SK 71... 42... Extant:   
Device: Stocks and whipping-post Remains:   
Date Built: Demolished:   
Location: On the north-east corner of the village Green, near to the site of the pinfold.

STOCKS – The stocks consist of a single post with an iron cap, and with four irons: the two low-level irons were used to tether one ankle and thereby acted in the same way as a more traditional stocks, while the two high-level irons served as a whipping post. No staples remain. The stocks provided the equivalent of 2 leg-holes.

WHIPPING POST – The whipping post consists of a single post with an iron cap, and with four irons: the two high-level irons served as a whipping post, while the two low-level irons were used to tether one ankle and thereby acted in the same way as a more traditional stocks. No staples remain.

### CAUNTON

O.S. Map Ref: Extant:   
Device: Stocks Remains:   
Date Built: Demolished:   
Location: Inside St. Andrew's Church in Main Street.

The stocks originally stood near the village pond, close to the bridge on the road to the nearby village of Hockerton (approximately 2 miles south-west of Caunton). The timber end posts were replaced around 1900, and are braced by a horizontal top-cross beam. The original six-holed lower and upper stock boards remain, but are both in a worn condition.

The stocks are said to have been last used in 1860 when 'Old Wombwell' was incarcerated for wife-beating, a crime for which he was a persistent offender. At that time the incumbent would have enjoyed the benefit of a wooden bench to sit on.

*Five photographs (© Mrs M. Elston) of the stocks are in the VLA Collection.*

### FIRBECK

O.S. Map Ref: SK 562 884 Extant:   
Device: Stocks Remains:   
Date Built: Demolished:   
Location: In the churchyard.

The stocks were originally located on the Green opposite the church, and in 1916 was in its complete state. The device was repaired prior to World War II and moved to the churchyard for safe keeing. In 1964 only the lower half remained, and in the early 1970s the device had disintegrated.

### KEYWORTH

O.S. Map Ref: SK ... .. Extant:   
Device: Stocks Remains:   
Date Built: Demolished:   
Location: Possibly by the village pump (now demolished)

The stocks probably stood next to the village pump, and gave rise to its name of Stockwell Pump. However, it might equally have been the place where farmers watered their passing livestock.

### PAPPLEWICK

O.S. Map Ref: ... .. Extant:   
Device: Stocks Remains:   
Date Built: Demolished:   
Location: At the crossroads.

### RADCLIFFE-ON-TRENT

O.S. Map Ref: SK 646 393 Extant:   
Device: Stocks and whipping-post Remains:   
Date Built: Demolished:   
Location: The whipping-post was in Main Street, close to the Church and Rectory wall, while the stocks are said to have stood at the east end of the churchyard.

It is unusual that the two devices were in different locations, albeit not too far apart. Instead, it is more likely that they were originally set together, possibly on the site of the stocks where they were known to stand until 1850. The confusion may stem from the fact that the whipping-post irons were at one time lost, but fixed onto the Church/Rectory wall when they were rediscovered in 1909.

One of the early references to the stocks appears in the 1920 reminiscences of John Riley of Radford, who records that "One Saturday, W. Pare, general dealer, had been to market and come home 'market merry' when he met the constable, who took him before the Squire who gave him two hours in the village stocks. Some children were pelting him with orange peel when I came upon the scene and drove them away. He thanked me and did me a good turn in 1846." The good turn in question was to help the boy run away from school after he had been punished.

The *Newark Advertiser* of August 1889, indicated that the 'stocks had been pulled down by some mischevious lads'. At that time they were located at the east end of the churchyard.

The whipping-post has been much restored, and has a small plaque erected to one side. It stands about less than one metre in height, and approximately 150 x 150mm in cross-section. The two wrist-irons are attached to the post, with one on either side.

*Date Built:* *Demolished:*   
*Location:* On the north-east corner of the Green.

The social historian Rev. J B Blakeway MA, FSA, in his *History of Albrighton*<sup>27</sup> refers to 'The Lords Courts and other public assemblies...holden in the Toll Shop, mentioned in the charter.' The Toll Shop stood by the Market House, and the charter was by letters patent by Charles II, issued on 17<sup>th</sup> March 1676.<sup>28</sup> Blakeway described the Toll House as standing 'in the centre of the town...[with]...two arches, with an upper room in which the business of the corporation is usually transacted; under the arches below is a town prison called the Crib, and a pair of stocks.' In 1899, the Rev. Thomas Priestley, BA, vicar of Albrighton at the turn of the twentieth century, wrote that the 'Market House, with the stocks under the arches below, and the Corporation room overhead, and also the Toll House, where the Courts of the Lords of the Manor were held...were near what we call the Crown Corner.'<sup>29</sup> The Lock-up, Stocks and Pinfold were established on the north-east corner of the Green. Some now living...[in 1899]...can remember seeing persons fixed in the stocks; but about 1845 the lock-up and stocks were abolished and the pinfold moved further on...<sup>30</sup>

## SOMERSET

**AXBRIDGE** *O.S. Map Ref: ST 43– 54–*  
Stocks  
Located inside the Museum.

**BATHEASTON** *O.S. Map Ref: ST 77– 67–*  
Stocks  
Located inside the church porch.

The stocks consist of two wooden end-posts attached to a basal frame, and two wooden stock-boards containing 4 leg-holes (2 medium and 2 large). Running along the top of the upper stock-board is a continuous iron band connected to a hasp and staple at one end, and a hinge at the other. Above the stocks, supported on two shaped iron rods which slip into metal straps on the end-posts, is a board which is considered locally as an integral part of the whole unit. Attached to it is a notice which states: *“The Parish Stocks were made by John Cottle in 1833 and restored in 1969.”* On 23rd August 1986, arsonists set fire to the church, and in doing so, badly damaged the stocks and destroyed one upright and much of the basal frame.

**BATHFORD** *O.S. Map Ref: ST 78– 66–*

Stocks

**CASTLE CARY** *O.S. Map Ref: ST 63– 32–*  
Stocks (remains)  
Located inside the Museum, but not on display.

The stocks were formerly in the churchyard at Lovington. All that now remains of them are one of the wooden end-posts with a long slot, and part of the wooden stock-board which has a rusty iron band and a hasp at one end, and part of a hinge at the other. The wood is rotten, powdery and riddled with woodworm.

**CHARD** *O.S. Map Ref: ST 32– 08–*  
Stocks

Located inside the Chard and District Museum.

The stocks comprise two wooden stock-boards containing 4 leg-holes, and stand on make-shift feet which are attached together by means of light angle-brackets: a bolt at one end of the lower stock-board indicates that the stocks were originally set on wooden feet. Although the hinge is missing, the stocks retain the iron bands along the top and bottom stock-boards, both of which extend behind the hasp. The staple is attached to the iron band on the bottom stock-board. Two iron rings are attached to the iron band on the top stock-board.

The stocks have at some time been painted black, although the paint is now wearing off.

The stocks were originally located in The Shambles.

Stocks and Whipping Post

The parish Accounts show that the earliest repair occurred in 1799 when:

Paid the Blacksmith's Bill for irons for the stocks and whipping post 13s. 9d

Further work was needed in 1823 when the sum of 15s.0d. was paid for their repair.

**LOVINGTON** *O.S. Map Ref: ST 59– 30–*  
Stocks

**LYMINGTON** *O.S. Map Ref: .. ..– ..–*  
Stocks (Nr Yeovil)

Among the list of incumbents of the parish church was the future statesman and lord chancellor of England Cardinal Wolsey (c. 1473-1530). In 1500 he overstepped the bounds of sobriety at a village feast and was duly arrested. The local justice of the peace Sir Amia Poulett, seized the opportunity to teach the young Thomas Wolsey a lesson and had him clapped in the village stocks.

**MARTOCK** *O.S. Map Ref: ST 46– 19–*  
Stocks

Originally placed between 'the pinnacle' and the Market House. After their disuse they were removed to the Market House where they remained until 1885. Later they were given to the vicar Prebendary A. P. Wickham, and were nearly burned with "other rubbish". They have now been repaired and re-erected near the entrance to the churchyard. Mr St. George Grey records that in 1859 an intoxicated chimney-sweep was confined in the stocks for 4 hours in the Market Place for insulting two ladies.

## KINGSLEY

*O.S. Map Ref: SK 01... 46...*

*Device:* Stocks

*Date Built:*

*Listed:*

*Dimensions (metres):*

*Location:* ...

*Extant:*

*Remains:*

*Demolished:*

*Conservation Area:*

It is said that the stocks were not used for punishing felons, but as somewhere for the Squire to tether his horse when he attended services at St. Werburgh's Church.

## LICHFIELD

*O.S. Map Ref: SK 118 095*

*Device:* Stocks

*Date Built:* pre 1643

*Listed:*

*Dimensions (metres):*

*Location:* In the Guildhall Cells, Bore Street.

*Extant:*

*Remains:*

*Demolished:*

*Conservation Area:*

Prior to 1643 the oak stocks were located in Dean Denton's Market Cross but after the destruction of the cross during the English Civil War, the stocks were moved and re-erected outside of the Guildhall. The stocks were later set up in the Market Square, and are now back at the Guildhall for safe keeping. The stocks contain six leg-holes, and are brought out for the city's annual St. George's Court – a now ceremonial court with no legal powers – held on St. George's Day (23<sup>rd</sup> April): the St. George's Court was the first of its kind in Norman times.

*Owners:* Lichfield City Council

## PENKRIDGE

*O.S. Map Ref: SJ 921 931*

*Device:* Stocks

*Date Built:* 18<sup>th</sup> century

*Listed:* II

*Dimensions (metres):*  $l = 1.3; b = 0.5$

*Location:* In Bell Brook, opposite the Old Cottage (q.v.), next to the lock-up.

*Extant:*

*Remains:*

*Demolished:*

*Conservation Area:*

The stocks were probably erected during the early part of the eighteenth century. It consists of two oak stockboards with four leg-holes, set between two oak end-posts, the tops of which are covered with a lead capping. Behind the stocks is an oak bench seat on which the felons would sit during their incarceration.

Some minor repairs were carried out by a local builder, possibly during the 1960s.

Owner: 1 Croydon Drive, Penkridge

*A coloured postcard showing the stocks (c. 1908) is in the Dave Martin Collection. Two colour transparencies showing the Stocks (© David Burton-Pye of South Staffordshire District Council) are in the VLA Collection.*

## SURREY

### ABINGER COMMON

O.S. Map Ref: TQ 115 460

Device: Stocks

Date Built: 17<sup>th</sup> Century

Listed: II

Dimensions (metres):

Location: On the Village Green.

Extant:

Remains:

Demolished:

Conservation Area:

The stocks consist of two oak stockboards containing six leg-holes, and two oak end-posts. One of the end-posts doubles as a whipping-post. The devices are set beneath a hipped canopy roof covered with shingles and supported on two oak posts (braced), and all contained within iron railings. Both the stocks and the whipping-post are in good condition for their age. It is likely that they were originally located close to the Manorial Court which was to the west of the church.

There is some disagreement over whether the stocks were ever put to use. In 1850, Brayley<sup>31</sup> claimed that 'To the honour of the parish these stocks are said never to have been used'. Bright<sup>32</sup> disagreed in 1884, stating that 'They were used as recently as 1820 and 1830 for the purpose of punishing boys who behaved in a disorderly manner during divine service.' Bright's claim was subsequently confirmed by the *Abinger Monthly Record* which commented that 'Local testimony...leaves no doubt that Abinger boys sometimes suffered this punishment between 1821 and

<sup>31</sup> BRAYLEY, E. W., *A History of Surrey* (1850).

<sup>32</sup> BRIGHT, J. S., *A History of Dorking* (1884)

1835, during the incumbency of the Reverend H. J. Ridley, who, it should be added, was a most kind-hearted man, and much loved by his parishioners.' It is often assumed that as the *Abinger Monthly Record* entry was made some 55-70 after the last stated use, the information was based on eyewitness (or victim) testimony, and therefore more reliable.

In 1891 the *Abinger Monthly Record* returned to the story stating that 'Mr Ridley...was the last Rector of Abinger who occasionally employed the parish stocks as a mode of punishment for refractory boys.'

The survival of the stocks appears to be due mainly to the Lord of the Manor W. J. Evelyn. In the *Abinger Monthly Record* of February 1890, it was reported that 'A vandalic proposal, made some years ago, to remove the stocks and whipping-post from the village green here – thanks to the Lord of the Manor – was not executed; a protecting roof and fence being erected over and around instead, to preserve them as a relic of the olden times.' The short paling fence, by then no doubt rotten, was taken down in the 1920s and replaced by a tall iron fence.

In 1944 the west end and nave of the church was struck by a flying bomb and caused much damage to the Norman walls. The stocks survived, seemingly undamaged.

*Owner:* Abinger Parish Council as Trustees of the Abinger Parish Recreation Grounds Charity.

*A sepia-tone postcard showing the stocks and the fence is in the VLA Collection.*

## ALFOLD

*O.S. Map Ref:* TQ 03– 34–

Stocks (with whipping post)

Located outside the churchyard gate, and contained within a fence and below a roof canopy.

Stocks – The stocks consist of two wooden end-posts—one is of medium height and the other tall (containing the wrist-irons for the whipping post) with a vertical 'runner' slot surrounded by an iron frame, in which the stock-boards move when un-hasped. Only the upper of the two wooden stock-boards has survived, with one central hasp.

Whipping Post – The wrist-irons are located on the taller of the two posts forming the stocks. One of the wrist-irons is incomplete. They are secured (upside down) by means of a wire.

*A sepia-tone photo-postcard (now silvered) showing the stocks is in the VLA Collection.*

## CHARLWOOD

*O.S. Map Ref:* ... ..

*Device:* Stocks and whipping post

*Date Built:* pre 1797

*Location:* Unknown.

*Extant:*

*Remains:*

*Demolished:*

Although the existence of a set of stocks can be established, their exact location is not recorded. Proof stems from an entry in the parish accounts for 1797, which states that John Charlwood charged 12s. for '3 New postes to the whiping stocks', while Joseph Humphrey was paid 1s.6d. for 'ficing 2 Joints to the Stocks'.

## CHIDDINGFOLD #1

*O.S. Map Ref:* SU 960 354

*Device:* Stocks and whipping post

*Date Built:*

*Location:* Probably outside of the village lock-up.

*Extant:*

*Remains:*

*Demolished:*

Between 1300 and c. 1750, the village Green was the site of the Chiddingfold Annual Fair, as well as the site of the weekly market (see: Chiddingfold Lock-up). At the lower end stood the Market

House (removed in 1812) and now replaced by the Smithy. The Market House was more usually called the Cross House, and was where the village Cross evidently stood, together with the stocks, whipping post and pillory.

A bench outside of the Smithy is said to have been made from the timbers of the old stocks.

## CHIDDINGFOLD #2

*O.S. Map Ref:* SU 960 354

*Device:* Pillory

*Date Built:*

*Location:* Probably outside of the village lock-up.

*Extant:*

*Remains:*

*Demolished:*

*See:* Chiddingfold #1 above.

## CROYDON

(UPPER WOODCOTE VILLAGE)

*O.S. Map Ref:* TQ 32... 65...

*Device:* Stocks and whipping post

*Date Built:*

*Location:* On the village Green at Upper Woodcote Village (part of the Webb Estate in Purley).

*Extant:*

*Remains:*

*Demolished:*

The stocks are modern and were introduced to the Webb Estate when it was built at the beginning of the twentieth century. It is assumed that the stocks, like the obelisk there, were included to give the village Green a more traditional appearance, and make it seem more historic. The sturdy oak whipping-post forms one of the end-posts of the stocks, which themselves contain four leg-holes.

## DUNSFOLD

*O.S. Map Ref:* ... ..

*Device:* Stocks and whipping post

*Date Built:* 17<sup>th</sup> century

*Location:* Unknown.

*Extant:*

*Remains:*

*Demolished:*

In his historical record Chiddingfold, written in 1909, the Rev. T. S. Cooper makes reference to a whipping-post at Dunsfold during the seventeenth century. It is likely that the whipping-post was adjoining a set of stocks, as is typical for Surrey.

## EGHAM

*O.S. Map Ref:*

*Device:* Stocks and whipping post

*Date Built:*

*Location:* On the edge of the churchyard.

*Extant:*

*Remains:*

*Demolished:*

STOCKS – the condition of the Stockhouse (a structure built to contain the stocks) had deteriorated during the early part of the eighteenth century, and in 1733 a decision was taken to renew it 'on that part of the churchyard now in the occupation of Richard Wright.' This has been assumed to be land on which Wright held grazing rights, and not needing his exhumation.

The one-month contract for the new structure was awarded to Henry Saunders of Staines, who received in return 7 guineas and the old structure. His commission was for a structure that was '7 feet square, inside; the walls a brick and a half thick, the height 7 feet from floor to ceiling. The floor to be paved with brick, the ceiling joists to be lined with boards an inch thick. The roof covered with tiles and brought out 3 feet in front, to make a pent-house beneath which the stocks and whipping-post were to be placed.'<sup>33</sup>

On first assessment, the structure appears to be a lock-up in that it was used to house both sick travellers as well as prisoners.

<sup>33</sup> TURNER, F., Egham, Surrey: *A History of the Parish under Church and Crown, Box and Gilham, Egham* (1926).

However, it is likely that this was the place where travellers were held (in the stocks) until they could be moved on.

WHIPPING-POST – the whipping-post does not appear to have been much used, or at least few entries have been placed in the parish records. The only record listed occurred in 1743 when one shilling was paid to ‘Hart for whipping Benj. Pearce’s wife.’<sup>34</sup>

### EPSOM

*O.S. Map Ref:* ... .. *Extant:*   
*Device:* Stocks *Remains:*   
*Date Built:* c. 1700 *Demolished:*   
*Location:* Outside the Watch House by the pond in the High Street.

### EWELL

*O.S. Map Ref:* ... .. *Extant:*   
*Device:* Whipping-post *Remains:*   
*Date Built:* *Demolished:*   
*Location:* On the Kingston Road.

Although there was no formal whipping-post, a clump of trees off the Kingston Road were used for the purpose and were known as the Whipping Trees. Deserters from the Napoleonic Wars were said to have been flogged there.

### HORSHAM

Stocks *O.S. Map Ref:* .. -- --

### LINGFIELD

*O.S. Map Ref:* ... .. *Extant:*   
*Device:* Pillory *Remains:*   
*Date Built:* Modern *Demolished:*   
*Location:* Outside the lock-up, by St. Peter’s Cross in Plaistow Street, next to the village pond (known as Gun Pit Pond).

In 1896 the English tourist J. J. Hissey wrote about Lingfield, saying that ‘Here by the side of the village pond, overshadowed by an ancient oak, stands a curious structure, looking somewhat like a Lilliputian church, duly provided with a tower to match its size... We observed upon closer view, two short and separate incipations painted on wood and placed against the wall of the miniature tower. These read as follows: “Ye Village Cage” and “St. Peter’s Cross”. The inscription only served to increase our curiosity, and so we sought a further and more explicit explanation of an intelligent-looking native who happened just then to be passing. In reply to our query if he knew what the building was, he replied “Oh, that’s the old village cage; it was used as a prison in my grandfather’s time, so I’ve heard tell. There used to be then, too, a whipping-post and some stocks outside the green, and they put the prisoners inside the cage o’ nights, and placed them in the stocks o’ days.”’<sup>35</sup>

While the statement about their use is imaginative and untrue, it is quite possible that the village had and used its own stocks and whipping-post.

### NEWDIGATE

*O.S. Map Ref:* ... .. *Extant:*   
*Device:* Stocks *Remains:*   
*Date Built:* Unknown *Demolished:*   
*Location:* Next to the church lychgate.

The stocks disappeared in 1945 at the end of World War II. It is said that old photographs exist showing the stocks in their correct location.

### OCKHAM

Stocks

Located on the village Green in Main Street, at the junction of Bilton Road and Bainmore Road.

The mobile stocks are set on an oak carriage mounted on four iron wheels. The stocks consist of of two oak end posts with iron caps, and two oak stock boards complete with four leg-holes. The stocks also contain their original hasp and staple.

It is said that the stocks were last used in 1866.

## COLESHILL

*O.S. Map Ref:* SP 20... 89... *Extant:*

Located on the Green by Hathaway farm, next to Anne Hathaway's Cottage.

*A sepia-tone postcard showing the stocks with two men incarcerated (c. 1918) is in the Dave Martin Collection. An identical sepia-tone postcard (postmarked 6<sup>th</sup> August 1931) is in the VLA Collection. A black and white postcard (c. 1904) showing the transportable stocks with two men incarcerated in them is in the Dave Martin Collection.*

**TREDINGTON** *O.S. Map Ref: SP 25– 43–*

Stocks

**THURLASTON** *O.S. Map Ref: SP 46– 70–*

Stocks

Located on a small Green at the end of Stocks Lane, at the junction with Main Street.

The stocks consist of two wooden end posts (repaired), two stock boards with four leg-holes, an iron hasp and staple. There is also a wooden bench. The top of the end posts and the top stock

board have lead covers; the bottom stock board is raised off the ground to prevent rot.

One local claimed that the stocks were never used, and built by Mr Bob Mitchell (1903-1987). The wood looks older and it may be that he repaired the end posts.

*A hand-coloured postcard (postmarked 1906) showing the stocks, and a black and white postcard with a man and a woman in the stocks, is in the VLA Collection.*

UFTON  
Stocks

Stocks

*O.S. Map Ref: SP 28– 65–*

## WILMCOTE

*O.S. Map Ref: SP 16– 58–*

*Device: Stocks and Pillory*

*Date Built:*

*Location:* In the corner of a barn in Mary Arden's House, now the Agricultural Museum.

*Extant:*

*Remains:*

*Demolished:*

STOCKS – The stocks were originally located at Ilmington. They were probably purchased and moved to Mary Arden's House soon after the museum was set up in 1932.

The wooden stocks contain four leg holes within the two stockboards, supported in oak end posts. One of the stockboards and one of the end posts have been replaced this century.

The expert on the Ilmington history is Major Peter Gardner, who lives in Ilmington, and is a guide at Mary Arden's House.

PILORY – The pillory was purchased in the 1980s from the Falcon Inn at Bidford-on-Avon. It is formed by two oak boards set approximately 1.200 metres above ground level and supported between two oak end posts. The boards are hinged at one end and fixed at the other with an original iron clasp.

According to the Museums Curator of The Shakespeare Birthplace Trust, the provenance of the pillory is uncertain, although it was for some time kept at the sixteenth-century building previously known as 'The Falcon Inn'. It was while it was at Bidford-on-Avon that the pillory became associated with the legend of William Shakespeare's drinking session at Bidford, on which occasion he is said to have fallen asleep beneath the canopy of a crab-apple tree. It is not known whether Shakespeare was later punished for his drunkenness by being put in the pillory, although John Jordan, the late eighteenth-century self-styled guide to Shakespearian matters did elaborate on the tale in one of his doggerel verses, saying:

Piping Pebworth, Dancing Marston,  
Haunted Hillborough, Hungry Grafton,  
Dadging Exhall, Papist Wicksford,  
Beggarly Broom, and Drunken Bidford.

*A glossy sepia-tone postcard (c. 1930s) showing the stocks inside a barn surrounded by agricultural instruments is in the Dave Martin Collection.*

WROXALL  
Stocks

*O.S. Map Ref: SP 22– 71–*

## WEST MIDLANDS

BERKSWELL  
Stocks

*O.S. Map Ref: SP 24– 79–*

Located on the village Green.

The stocks have five leg-holes. It has been suggested that there was once six holes but when one end rotted it was cut off,

taking the sixth hole with it. This explanation is questionable. An alternative explanation, like that explained by the Skipton Museum (NY) is that the stocks were made to accommodate a particularly troublesome one-legged offender and his two sidekicks.

*A hand-coloured postcard (postmarked 18<sup>th</sup> August 1944) showing the stocks and fence is in the VLA Collection.*

BIRMINGHAM  
Stocks

*O.S. Map Ref: SP 07– 86–*

Located inside the Local History Gallery of the City Museum.

The stocks are mobile and mounted on small iron wheels. They consist of two wooden end-posts of medium height fastened to a platform and strengthened with wooden brackets, and two wooden stock-boards—part of the top stock-board is missing—contain 5 leg-holes. The locking device has not survived: the upper stock-board is now fixed shut, and the whole unit painted black.

COVENTRY  
Stocks.

*O.S. Map Ref: SP 33– 78–*

Located next to St. Mary's Hall.

*A coloured postcard (c. 1907) showing the stocks is in the Dave Martin Collection. A glossy sepia-tone postcard (c. 1920s) showing the stocks inside a medieval stone entrance gate is in the VLA Collection.*

Located inside the Museum.

## WEST SUSSEX

CHICHESTER

*O.S. Map Ref: SU 86– 06–*

Stocks (with whipping post)

Located inside the Chichester District Museum.

STOCKS – The stocks are mobile and mounted on a four-wheeled platform, two of which are pinned with an iron towing handle to make easy any movement round corners. They consist of two sets of wooden stock-boards, each containing 2 leg-holes (making four in total) and hinged from the outside edge. An iron band is fixed over the top and side of each stock-board, and forms a hasp which laps the staple on the central whipping post. At the back of the stocks is fixed a wooden seat.

WHIPPING POST – The whipping post is fixed at the centre of the mobile stocks, and set on a four-wheeled platform capable of being steered. The whipping post contains a pair of triple wrist-irons, making it possible to restrain up to six people—three if both wrists are secured—although it is difficult to see where they could all stand on such a small cart.

**WORTHING** *O.S. Map Ref: .. – –*  
Stocks  
Located inside the Museum.  
The stocks are mobile and set on wheels.

## WEST YORKSHIRE

**ALLERTON** *O.S. Map Ref: SE 111 344*  
Stocks (with whipping post)  
Located in the Recreation Ground.

Stocks – The stocks consist of two stone end-posts, each with two lead-lined inserts on the inner face—none on the outer faces—one of which still retains the hinge from a wrist-iron from the whipping post. The stock-boards have not survived. One the ground next to the stocks is a stone slab which provided a seat for the felons to sit on.

Whipping Post – The hinge of a wrist-iron remains on one of the inserts of the stone stock posts.

**ALMONDBURY** *O.S. Map Ref: SE 16– 14–*  
Stocks

**BAILDON #1** *O.S. Map Ref: SE 15– 39–*  
Stocks

**BAILDON #2** *O.S. Map Ref: SE 15– 39–*  
Stocks  
Located in Roberts Park.

They were originally located at Shipley. They consist of two stone end-posts of medium height, and one stone stock-board containing 4 leg-holes and a central staple: the upper stock-board is missing. Behind the stocks is a stone seat for use by the incarcerated felons.

*A colour photograph of the stocks (© Dave Martin) is in the VLA Collection.*

**BARKISLAND** *O.S. Map Ref: SE 05– 19–*

Stocks  
Located by the side of the road in the grounds of ‘Stocks House’ in Stainland Road (No. 76).

Stocks – The last person to be set in the stocks was impounded in 1857 for not paying his ale bill.

Whipping Post – There may be grounds for the claim that the two large posts running vertically through the house were used as whipping posts.

The stocks and Stocks House (with whipping posts) are owned by Mr and Mrs Laithwaite of Lower Hall, Barkisland, Halifax, West Yorkshire HX4 0AG.

*There is a postcard (c. 1907) showing the stocks and children sitting in them, none of whom appear to be enjoying the predicament. A colour transparency of the Stocks House (© Dave Martin) is in the VLA Collection.*

**BINGLEY #1** *O.S. Map Ref: SE 10– 39–*

Stocks  
Located by the Butter Cross in Jubilee Gardens, next to the Arts Centre.

At some time between 1983 and 1986, the stocks, Butter Cross and Butter Market were all moved from the Prince of Wales Park back to the town centre, where they have been faithfully reconstructed. They are now back in their original location. The Butter Cross was erected in 1212 AD when King John gave Bingley its Market Charter.

*A black and white postcard (c.1910) showing the stocks and the Butter Cross, and two colour photographs of the stocks (© Dave Martin) are in the VLA Collection*

**BINGLEY #2** *O.S. Map Ref: SE 110 338*

Stocks  
Located in front of the Police Station.

The stocks were originally at Bradford before being moved to their new location at Bingley. They comprise two cylindrical iron end-posts with hemispherical caps, each with one flat face and a vertical slot in which the stock-boards are set. Attached to the base of each end-post is a square base (iron) bolted the whole unit to the ground. The two wooden stock-boards are recent replacements and have irregular top and bottom edges. They contain 4 leg-holes and are locked together by passing a chain through two iron rings bolted to the stock-boards. To the back of the stocks is a large stone seat.

**BRADFORD** *O.S. Map Ref: SE 16– 32–*

Stocks  
The stocks were moved to Bingley, and are located outside the Police Station (see: Bingley #2 above).

**BURLEY-IN-WHARFEDALE** *O.S. Map Ref: SE 16– 46–*

**HEPTONSTALL #1***O.S. Map Ref: SD 98– 28–*

Stocks (remains)

Located at the far end of Northgate, in Northwell Lane.

One of the two stone end-posts is all that remains of the village stocks, which were originally positioned close to The Cross Inn (originally known as the Stocks Inn) in Towngate. On the side of the end-post is a carved hand and mileage to the nearby village of Haworth, threby serving the dual purpose of punishment device and fingerpost.

The church records of 1823 note that a new set of 'mobile' stocks were purchased to replace the stone ones: the stone stocks were eventually dismantled in 1875.

*A photograph of the stocks (© Dave Martin) is in the VLA Collection.*

**HEPTONSTALL #2***O.S. Map Ref: SD 98– 28–*

Stocks (new)

Located in the position of the Great Well, near the car park and lock-up.

The stocks are new.

*A transparency and photograph of the stocks (both © Dave Martin) are in the VLA Collection.*

**HOLMFIRTH***O.S. Map Ref: ... -- --*

Stocks

Located by the side of a Green.

Frequently seen in the television programme Last of the Summer Wine.

**HONLEY***O.S. Map Ref: SE 13– 11–*

Stocks

Located in the churchyard.

**HUDDERSFIELD***O.S. Map Ref: SE 14– 16–*

Stocks

Located inside the Museum.

**ILLINGWORTH***O.S. Map Ref: SE 071 283*

Stocks

Located next to the lock-up on the left-hand side of the A629 Halifax to Keighly Road, approximately 200 yards beyond the Talbot inn, and alongside the access track to St. Mary's Church.

The stocks are older than the adjoining lock-up. On one of the millstone-grit end-posts is carved the date 1697 and initials "G.K." [the initials are of George Kitchenman, constable of Ovenden at that time]; on the other end-post are the initials "A.H." and "G.R." with the motto "Know Thy Self." The last occupant of the stocks is reputed to be a man with the soubriquet "Sam Pig."

A clipping titled "Trend of Things" in *Halifax Courier*, c. 1940s, states that there was a crown carved over the "G.R." initials. This does not fit with date carved on the other end-post, as George I's accession to the throne was not until 1714: William III was monarch in 1697. The same article also claims that the initials on the dated end-post are "J.K."

**KIRKTHORPE***O.S. Map Ref: ... -- --*

Stocks

**RIPPONDEN** *O.S. Map Ref: SE 03– 19–*

Stocks

Located outside the Old Bridge Inn.

The original stocks stood on the corner of Elland Road in the village centre until 1773. Prompted by the rise in crime, the Barkisland–cum–Ripponden Prosecution Society was founded in 1887 for the protection of private property. This was further antagonised by the demolition of the stocks (then positioned outside Bridge Inn) in 1887. The Society’s answer was perhaps more effective—the appointment in 1888 of P.C. Snow as Ripponden’s first policeman who regularly pounded his beat and, when necessary, took “well-aimed swipes at the local bad-lads with the thick end of his cloak!” (from: Whiteley, H. M., *Ryburn Tapestry*, Evening Courier, Halifax).

**SHELF** *O.S. Map Ref: .. ..– ..–*

Stocks and Whipping Post (whipping post removed)

Located at the junction of Coley Road and Brighouse and Denholme Gate Road.

Stocks – The stocks were originally erected in 1607 by the parish constables of Shelf, Northowram and Hipperholme at the nearby village of Stone Chair (on the A6036 between Halifax and Bradford), and rebuilt there in 1800. Sometime later they were moved to their present position at Windmill Hill, named after the corn mill that once stood near the site. The local authority renovated the stocks in 1970, and covered up (with concrete ‘flags’) the stone ring in which stood the original whipping post.

Whipping Post – The site of the whipping post was marked by a small stone ring, about 600mm in diameter, which formed the base for the whipping post. It was covered up in 1970 by the local authority when they renovated the stocks, and covered the stone ring with concrete ‘flags’.

**SHIPLEY** *O.S. Map Ref: SE 15– 37–*

Stocks

The stocks were moved to nearby Baildon (see: Baildon #2).

**SOUTHOWRAM** *O.S. Map Ref: .. ..– ..–*

Stocks

Located in Cane Lane.

A feature headed ‘Southowram Stocks’ in the *Halifax Courier* (1940s) shows two photographs of the stocks. One is how they

appeared shortly before the second world war and prior to the widening of Cain Lane. At that time the stocks were in the boundary wall of the road but the space behind them (between the stocks and the wall) had been filled with rubble and earth. On the right-hand side of the picture is “the late Mr. Tom Armitage, former Brighouse Rangers footballer, who was the foreman in charge of the road widening.” The second photograph shows the stocks after the road works had been completed.

**SOWERBY BRIDGE** *O.S. Map Ref:*

Stocks

Located near the church, probably at the top of Stocks Lane.

**STAINLAND** *O.S. Map Ref: .. ..– ..–*

Stocks

Located on a village Green by the telephone box, and opposite the entrance gates to Weston Manor.

*Two colour photographs of the stocks (© Dave Martin) are in the VLA Collection.*

## WILTSHIRE

### CHILTON FOLIAT

*O.S. Map Ref:*

*Device:* Finger Pillory

*Date Constructed:* Pre 1590

*Listed:*

*Dimensions (metres):*

*Location:* In the Great Hall in Littlecote House, now a Warner Hotel.

The finger pillory is said to have been used by Judge Sir John Popham (a former owner of Littlecote) for confining prisoners in the dock of his court. He is said to have been an effective and uncompromising judge, causing J. P. Neale to say of him in 1882 that ‘he was esteemed a severe judge in the case of robbers, but his severity was well timed, as it reduced the number of highwaymen who infested the country.’<sup>36</sup>

The belief is that when Popham inherited the house in 1589, he brought the device with him. The reason is unclear, although the popular understanding is that it was so that Popham could

<sup>36</sup> *Littlecote: A History* guidebook written by Walding Associates for Warner Holidays Limited (1997).

hold his court at Littlecote and avoid travelling to other courts elsewhere. However, as Attorney-General it is unlikely that Popham would have continued to officiate at 'lower trials' where the finger pillory would have been used to hold petty criminals.<sup>37</sup> This has led to common speculation that the finger pillory was used for 'domestic punishments, e.g. for disorderly conduct during Christmas festivities'.<sup>38</sup> It is difficult to give any conclusive explanation, and may even have been simply a memento of his earlier days on circuit duty.

The finger pillory stands approximately 1½ metres high with a 1 metre long top beam. It is more ornate than the one at Ashby-de-la-Zouch, and is far better preserved. It is still used today as a means of punishing miscreant dinner guests at medieval banquets hosted by the hotel owners.

#### CHILTON FOLIAT O.S. Map Ref: SU 333 701

Stocks

Located by the roadside, with a low fence around.

The stocks consist of two wooden uprights set into the ground, with two wooden horizontal boards (weathered and overgrown with ivy), and 4 leg-holes.

#### LEVERTON O.S. Map Ref: SU 31– 70–

Stocks

*A black and white postcard is in the VLA Collection.*

#### MARLBOROUGH O.S. Map Ref:

Pillory

Located at 132 High Street, and owned by The Merchant's House (Marlborough) Trust.

The pillory is slightly unusual in that the device is mounted within a rectangular-shaped timber frame which is supported on a single central wooden post housed into a timber cross-foot. In order to detain the head and the wrists, the bottom head-board is lowered; and in order to detail the wrists the top wrist-board is raised. When the detainee is securely fixed, a small wooden block is wedged between the two moveable boards to hold them in position.

The whole device is constructed of pine and is assumed to have been formed around 1800.

*A picture of the device is in the Dave Martin Collection.*

### UNITED STATES OF AMERICA

#### THE STOCKS

Like some other forms of punishment, the stocks and the pillory were taken to America with the early English settlers, and from all accounts were used as frequently in the New World as they were in Britain. They were generally used on common people rather than on gentlemen, and were almost exclusively used on men, although some cases of their use on women are known.

Somewhat unusually, perhaps, the weather was taken into account when drafting the New World law. Perhaps it was because the weather was particularly severe, or concern that even the convicted needed to survive their short spell of punishment. In Massachusetts, for example, the law enacted on 18<sup>th</sup> June 1645 stated that if 'he yt offens in excessive and longe drinkinge, he shalbe sett in the stocks for three howers when the weather is seasonable.'

In Boston, the magistrates had an early 'pair of bilbowes' which they probably brought over from England. But they soon ordered the manufacture of a set of stocks. However, with an ironic humour that is normally missing from Puritan law, the first to sample them was Edward Palmer, the local carpenter who had made them. Palmer had been found guilty of 'extortion in taking £1.13s.7d. for the plank and wood work of Boston stocks' and was 'fyned £5 & censured to bee sett an houre in the stocks.'<sup>39</sup>

Every town was encouraged to provide a set of stocks, and punished if they did not. The State of Rhode Island ordered that 'good sufficient stocks' should be provided in every town. The picture was the same elsewhere. In 1638 the Massachusetts towns of Newbury and Concord (Middlesex County) were both fined for 'the want of stocks', with Newbury being given until the next session of the court to provide them. The town duly obeyed the order, and soon afterwards had cause to incarcerate John

<sup>37</sup> Popham had already officiated at the trial of Mary, Queen of Scots (at Fotheringay), and later at the trials of Sir Walter Raleigh in 1603, and Guy Fawkes in 1606.

<sup>38</sup> TRAILL, H. D., and MANN, J. S., *Social England*, Cassell & Co. Limited, vol.III (1903).

<sup>39</sup> The charge was certainly excessive when considering that about the same time, Robert Bartlett, the carpenter of New London made 'a pair of stocks with nine holes fitted for the irons' and only charged 13s.4d.

Perry in them for his 'abusive carriage to his wife and child.' The following year the nearby towns of Dedham and Watertown (also Middlesex County) were also presented for 'the want of stocks.'

The early settlers seemed particularly keen to protect their reputation, and the court records detail numerous cases of slander and libel. In most cases, the stocks were used to effect a suitable punishment, especially as it humiliated in return the convicted offender. In Hunger's Parish, Virginia, for example, Henry Charlton was found guilty in 1633 of slandering the minister, Mr. Cotton, Charlton, and ordered 'to make a pair of stocks and set in them several Sabbath days after divine service, and then ask Mr. Cotton's forgiveness for using offensive words concerning him.' Twenty two years later, William Bramhall was convicted in 1655 of signing a rebellious petition. As it was his second similar offence, he was ordered to be 'at the Charge of Building a Pair of Stocks and see it finished within one Month.' However, there is no record of him being placed in the stocks, but is assumed that he was.

Similarly high on the punishment list was the abusive effect of alcohol and, of course, theft and deceit. At Ipswich, Massachusetts [...?..], John Wedgwood was set in the stocks in 1639 simply because he was in the company of known drunkards. Also that year, a Yarmouth thief was placed in the stocks for stealing flax and yarn, while in the Delaware town of Rehoboth (Sussex County), a man was stocked for stealing an Indian child.

Understandably in a collection of settlements of Quakers and churchgoers, anyone found guilty of evading religious worship was likely to be incarcerated in the stocks. A common notice would read that 'All persons who stand out of the meeting-house during time of service, to be set in the stocks.' In mid-seventeenth century Plymouth, the job of enforcing this rule fell on the 'Tithing-man. His authority to act was laid down by a statute saying that 'all persons being without the doors at the meeting house on the Lords daies in houres of exercise, demeaning themselves by jesting, sleeping and the like, if they shall psist in such practices' could be set by him in the stocks.

In many cases, the stocks were set up outside of the church, with the punishment exacted after the culprit had made a public confession of his sin inside. In his book *Quarter Sessions from Queen Elizabeth to Queen Anne*, Hamilton says that 'A favorite punishment for small offenses, such as resisting the constable, was the stocks. The offender had to come into the church at morning prayer, and say publicly that he was sorry; he was then set in the stocks until the end of the evening prayer. The punishment was generally repeated on the next market-day.'

Equally abhorrent was the sin of sloth and idleness. Much like they were in England, vagabonds were unwelcome and often whipped from town to town. An example of this appears in the records for Westerly, Rhode Island:

'SEPTEMBER 26, 1748. That the officer shall take the said transient forthwith to some publick place in this town and strip him from the waist upward, & whyp him twenty strypes well layd on his naked back, and then be by said officer transported out of this town.'

#### THE BILBOE

Before the New World authorities had made arrangements for stocks to be provided in every town, they commonly used a device called a 'bilboe'. This was essentially a simple form of the stocks, usually formed by a long and heavy iron bar with two iron shackles for the ankles. Once locked in place with a padlock, and sometimes with a chain to secure the prisoner to a floor or wall (or heavy object), the incarcerant had nowhere to go. While more commonly used aboard ships,<sup>40</sup> they were used on land in both

America and England. Shakespear, for example, mentions them in his play *Hamlet*, saying 'Me thought I lay worse than the mutines in the bilboes.'

Much like the stocks and the pillory, the function of the bilboe was to subject a felon to both public incarceration, ridicule and mockery. Public contempt and derision was easily applied while the condemned man was locked in to these so-called 'engines of punishment and placed on public display.

The oldest surviving court records of the Massachusetts magistrates<sup>41</sup> include numerous references to the bilboe and its use. The first was dated 7<sup>th</sup> August 1632, and recorded how the Boston Court ordered that 'Jams Woodward...be sett in the bilbowes for being drunk at the Newe-towne.'<sup>42</sup> Another records the case of a colonist who was found guilty of 'selling peeces and powder and shott to the Indians.' A third involved a man named Thomas Dexter, who on 4<sup>th</sup> March 1633 was sentenced to be 'be sett in the bilbowes, disfranchized, and fyned £15 for speking rchfull and seditious words agt the government here established.' In 1634 the remorseful Henry Bright from 'Newe-towne' was also set in the bilboes for swearing. The following year, on 7<sup>th</sup> April 1635, Griffin Montagne was 'sett in ye bilbowes for stealing boards and clapboards and enjoyned to move his habitacon.'

The demise of bilboes in the New World owed little to the development of a humane law, and more to logistics. Iron and iron-workers were scarce, while timber and carpenters were more readily available. As such the stocks and pillories were easier and cheaper to manufacture, and soon began to appear in all town communities.

#### THE PILLORY

In contrast to the English settlements, the Dutch preferred to use the pillory and the whipping-post; few Dutch towns had a set of stocks. For example, the Heer officer in Beverwyck (Albany) Martin de Metslaer wounded another man in a drunken brawl. The authorities duly hunted him down and 'hauled him out of bed and set him in the stocks.'

The American novelist Nathaniel Hawthorne (1804-1864) was deeply concerned with the ethical problems of sin, punishment, and atonement, and recorded many examples in his writings. He recorded a typical Lecture-day<sup>43</sup> gathering in New England, saying that 'The tokens of its observance are of a questionable cast. It is in one sense a day of public shame; the day on which transgressors who have made themselves liable to the minor severities of the Puritan law receive their reward of ignominy.' One victim was Nicholas Olmstead of Connecticut, who was ordered to 'stand on the pillory at Hartford the next lecture-day' and be 'sett on a lytle before the beginning and to stay thereon a lytle after the end.'

The execution of the punishment could be as severe in the New World as it was in Britain. For example, in 1648, John Goneere from Maryland was convicted of perjury and 'nayled by both eares to the pillory 3 nailes in each eare and the nailes to be slitt out, and whipped 20 good lashes.' Also that year, Blanch Howell was convicted of wilfully and unsolicitedly committing perjury, and ordered to 'stand nayled in the Pillory and loose both her eares.'

In all areas of the New World, severe punishments were meted out to those convicted of counterfeiting. Even the notes (bills) of the time bore the legend 'To counterfeit this bill is Death.' In 1762 Jeremiah Dexter of Walpole, was convicted of knowingly using two counterfeit dollars, and was ordered to

Armada occurred in 1588, and a 'bilbous' is mentioned in *Hakluyt's Voyages* (v.1, p.295) published some years before, the claim is now suspect.

<sup>41</sup> The Bay Colony of Boston.

<sup>42</sup> The old name of Cambridge.

<sup>43</sup> The day preferred by the authorities for public punishment because it guaranteed large gatherings of reproving spectators.

<sup>40</sup> The device is believed to have derived from the Spanish town of Bilboa and carried aboard the ships of the Spanish Armada for use in shackling any English prisoners of war. However, as the Spanish

stand in the pillory for an hour, while another man had his ears cropped for the same offence.

Other areas were less violent. In Dutch ruled New York, dishonest bakers were forced to stand in the pillory with dough on their heads. A more bizarre example was that of Mesaack Maartens who was convicted of stealing cabbages from a man called Jansen, the ship's-carpenter living onboard *'t maagde paatje* (The ...). He was tortured in order to extract a confession and then sentenced to stand in the pillory with cabbages placed on his head.

In his recollections of his boyhood in Boston, Samuel Breck in 1771 said that 'A little further up State Street was to be seen the pillory with three or four fellows fastened by the head and hands, and standing for an hour in that helpless posture, exposed to gross and cruel jeers from the multitude, who pelted them constantly with rotten eggs and every repulsive kind of garbage that could be collected.'

As in Britain the writing of critical books and pamphlets against the State and authorities was a punishable offence. And as in Britain (and elsewhere) it was often followed by the public burning of those books and pamphlets.

One of the early examples in America occurred in 1634 in Massachusetts. The *Colonial Records*<sup>44</sup> recount the story of Israel Stoughton who had 'written a certain book, which hath occasioned much trouble and offence to the Court; the said Mr. Stoughton did desire of the court, that the said book might be burnt, as being weak and offensive.' However, the author's plea did not save him from punishment, and he was barred from holding any office in the commonwealth for a period of three years.

A considerably more detailed example occurred in New England on 16<sup>th</sup> October 1650. The entry in the Court records tell how 'There was brought to our hands a booke written, as was therein subscribed, to William Pinchon, Gent, in New England, entituled *The Meritorious Price of or Redemption, Justification, &c. clearing it from some common Errors &c.*' The book had been brought to New England from England, where it was printed, on one of the arriving ships. The court stated that 'we detest & abhorre many of the opinions & assertions therein as false, eronyous, & hereticall; yea, & whatsoever is contayned in the sd booke which are contrary to the Scriptures of the Old & New Testament, & the generall received doctrine of the orthodox churches extant since the time of the last & best reformation & for proffe and evidence of our sincere & playne meaninge therein, we doe hereby condemne the sd booke to be burned in the market place, at Boston, by the common executionor.' Having summonsed William Pinchon before the court, he was asked to confirm whether or not the book was his, 'which if he doth, we purpose (God willinge) to pceede with him accordinge to his demerits, unles he retract the same, and give full satisfaction both here & by some second writinge to be printed and dispersed in England; all of which we thought needfull, for the reasons above alleaged, to make knowne by this short ptestation & declaration. Also we further purpose, with what convenient speede we may, to appoynt some fitt psn to make a pticular answer to all materiall & controversyall passages in the sd booke, & to publish the same in print, that so the errors & falsities therein may be fully discovered, the truth cleared, & the minds of those that love & seeke after truth confirmed therein p curia.' That person was 'Mr. Norton, one of the reve'nd elders of Ipswich, should be intreated to answer Mr. Pinchon's booke with all convenient speed.'

#### THE WHIPPING POST

When the British settlers arrived in the New World, they carried with them orders that they were to restrain and deal with all trouble-makers, whether they be settlers, sailors or native

Americans. As a result, the whipping-post was quickly deployed in all settlements. An early case occurred at Boston on 30<sup>th</sup> November 1630, where the court sentenced a man to be whipped for stealing a loaf of bread. Other cases involved a man who was whipped for swearing, another for leaving a boat 'without a pylott', and another (John Pease) for 'stryking his mother and deryding her'. Scourgings were also given on the Sabbath and on lecture days. Other crimes, for which whipping was used as a punishment included perjury, lying, taking false toll, and selling rum to the Indians. Likewise, anyone not respecting the Sabbath could also expect to be punished at the whipping-post. Among those who probably wish that they had was Roger Scott who in 1643 was severely whipped for 'repeated sleeping on the Lord's Day' and for striking the person who awakened him from that sleep.

Women were not immune from public whipping either. For example, on 30<sup>th</sup> February 1638, 'Anne ux. Richard Walker' was 'cast out of the church of Boston for intemperate drinking from one inn to another, and for light and wanton behavior, was the next day called before the governour and the treasurer, and convict by two witnesses, and was stripped naked one shoulder, and tied to the whipping post, but her punishment was respited.' Women could also be whipped for claiming 'gift of prophecy'.

The severity of these punishments is always surprising. A case in point was that of Philip Ratcliffe, who in June 1631 was found guilty by the General Court in Boston of 'uttering malicious and scandalous speeches against the Government.' He was ordered to be 'whipped, have his eares cutt off, fined 40 pounds, and banished out of the limits of this jurisdiction.' What made the event so noteworthy was that it attracted considerable criticism back in England, even though the same punishments were regularly being practiced here with little public outcry. It has to be assumed from this that the people of England had higher hopes for the New World and were probably greatly disappointed by news of the crime and need for such punishment.

Despite the uproar in England, and the severity of the punishment in America, no victim was every lashed more than forty times in any one sentence. Seeking to protect the gentleman classes from such public humiliation, the *Body of Liberties* decreed that no 'true gentleman or any man equall to a gentleman shall be punished with whipping unless his crime be very shameful and his course of life vitious and profligate.' This class difference led to problems, not least in the case of Mr Plaistowe who was convicted of fraudulently obtaining corn from the Indians. Plaistowe's punishment was to be condemned to be called 'Josias', while his man servant, who only assisted in the fraud, was whipped.

By today's standards, most crime in seventeenth century America was tame. Today we regularly criticise all politicians and public officials, and don't expect to be hauled before the magistrate afterwards. However, in the New World, a man's name and reputation was extremely important. On 1<sup>st</sup> April 1634, John Lee was found guilty of calling Mr. Ludlowe a 'false-heart knave' and a 'hard-heart knave', and was whipped and fined 11 shillings. Six months later he was whipped and fined again, this time for 'speaking reproachfully of the Governor, saying hee was but a lawyer's clerk, and what understanding hadd hee more than himselfe, also takeing the Court for makeing lawes to picke men's purses, also for abusing a mayd of the Governor, pretending love in the way of marriage when himselfe professed hee intended none.'

Unsurprisingly, sexual activity among the unmarried young was considered sinful. Anyone found indulging in the practice was destined for the whipping-post. The Plymouth Laws of 1638 included the following:

'Whereas divers persons unfit for marriage both in regard of their yeong yeares, as also in regarde of their weake estate, some practisinge the inveagling of men's daughters and maids under

<sup>44</sup> Volume 1, page 137.

gardians contrary to their parents and gardians liking, and of maide servants, without the leave and liking of their masters: It is therefore enacted by the Court that if any shall make a motion of marriage to any man's daughter or mayde servant, not having first obtayned leave and consent of the parents or master soe to doe, shall be punished either by fine or corporall punishment, or both, at the discretions of the bench, and according to the nature of the offense.' In New Haven, this was further extended to include 'inveagling' by 'speech, writing, message, company-keeping, unnecessary familiarity, disorderly night meetings, sinfull dalliance, gifts or in any other way.'

The frequency of convictions was so great at times that felons were sometimes punished in groups. For example, the Boston court records for 9<sup>th</sup> September 1787 lists one burglar and two thieves to be hanged on the gallows, five other thieves to be whipped, and a counterfeiter set on the pillory. Two years later, the Boston newspaper of 11<sup>th</sup> August 1789 reported that eleven felons were that day to receive the 'discipline of the post.' Such large numbers would have been exhausting for the executioner, and as a result the Sheriff ordered the whipping to be done by one of the prisoners.

By this time, whippings were common occurrences. In Virginia, even the 'launderers and launderesses' who washed 'any unclean Linen, drive bucks, or throw out the water or suds of fowle clothes in the open streetes,' or who sought payment for washing a soldier's or labourer's clothes, or who swapped old torn linen for good, could expect to be whipped. Also in Virginia, whipping was used to punish anyone found guilty of slitting the ears of pigs or cutting off their ends to remove ear-marks, and who stole tobacco, ran away from home, and the destruction of land-marks.

The practice of whipping felons at the whipping-post stopped with the end of the American Civil War (1861-65); at least it did in all states except Maryland and Delaware. The practice is still legal in Delaware, and the state magistrates contend that it influences the behaviour of the community by providing a suitable restraint to wife-beaters, and cruel and vicious criminals.

### BOSTON

*Device:* Bilboes *Extant:*   
*Date:* *Remains:*   
*Located:* *Demolished:*

The bilboes were brought to Boston by John Winthrop (1588-1649)<sup>45</sup> in order to establish law and order. They were eventually replaced in 1639 by Edward Palmer's stocks.

Before they were replaced, the bilboes witnessed plenty of use (see Introductory text). One well-noted case was that of Sergeant John Evans who had been found guilty of being drunk. On a hot day in June 1638, Evans was made to sit in the bilboes in the square in front of the Governor's house. There, dressed in full military uniform, and in front of a large crowd on onlookers (including sailors from ships anchored in the bay, women and children from the surrounding area, and members of the local Indian poplation), he sat in the bilboes with a letter 'D' cast in lead and branding him as a drunkard.

### BOSTON

*Device:* Stocks and Pillory *Extant:*   
*Date:* *Remains:*   
*Located:* *Demolished:*

One of the earliest references to the stocks at Boston dates from 1679 when a Frenchman was ordered to stand in the Pillory merely for being suspected of setting fire to the the town. He was also ordered to have both ears cut off, pay the charges of the court, and remain in prison under a five hundred pound bond until the sentence was carried out.

In March 1803, Robert Pierpont (owner) and H. R. Story (master) were found guilty of deliberately sinking at sea the brigantine 'Hannah' in order to defraud the underwriters. Both men were sentenced to stand one hour in the pillory in State Street on two separate days. They were also committed to prison for two years and ordered to pay the prosecution's costs.

Soon after Palmer had made his stocks (see Introductory text), they saw extensive use. Among the victims were James Luxford, who was 'psented for having two wives.' He was ordered to pay a fine of £100 and be set in the stocks for one hour on the first market-day after the two following lecture-days.

<sup>45</sup> Winthrop was the colonial administrator of Massachusetts. In 1629 the Massachusetts Bay Company in London selected the lawyer to govern its colony in New England. Together with some 700 Puritan settlers, he landed at Salem, Massachusetts, on 12<sup>th</sup> June 1630, and settled in the Shawmut Peninsula community, which he later renamed Boston. His journals were published in 1825-26 under the title *History of New England, 1630-1649*.

This was so that he would be seen by every maid and widow in the town, and be prevented from acquiring wife number three. A little later, a watchman of the town was set in the stocks for 'drinking several times of strong waters', followed by a man for 'uncivil carriages'.

The Boston stocks were also involved in a comical event in 1644. According to Governor Winthrop's account 'There fell out a troublesome business in Boston. An English sailor happened to be drunk, and was carried to his lodging, and the constable (a godly man and much zealous against such disorders), hearing of it, found him out, being upon his bed asleep, so he awaked him, and led him to the stocks, no magistrate being at home. He being in the stocks, one of La Tour's French gentlemen visitors in Boston lifted up the stocks and let him out. The constable, hearing of it, went to the Frenchman (being then gone and quiet) and would needs carry *him* to the stocks. The Frenchman offered to yield himself to go to prison, but the constable, not understanding his language pressed him to go to the stocks: the Frenchman resisted and drew his sword; with that company came in and disarmed him, and carried him by force to the stocks, but soon after the constable took him out and carried him to prison, and presently after, took him forth again, and delivered him to La Tour. Much tumult was there about this: many Frenchmen were in town, and other strangers, who were not satisfied with this dealing of the constable yet were quiet. In the morning the magistrate examined the cause, and sent for La Tour, who was much grieved for his servant's miscarriage, and also for the disgrace put upon him (for in France it is a most ignominious thing to be laid in the stocks), but yet he complained not of any injury, but left him wholly with the magistrates to do with him what they pleased, etc....

The constable was the occasion of all this transgressing the bounds of his office and that in six things. 1. In fetching a man out of his lodging that was asleep upon his bed and without any warrant from authority. 2. In not putting a hook upon the stocks, nor setting some to guard them. 3. In laying hands upon the Frenchman that had opened the stocks when he was gone and quiet. 4. In carrying him to prison without warrant. 5. In delivering him out of prison without warrant. 6. In putting such a reproach upon a stranger and a gentleman when there was no need, for he knew he would be forthcoming and the magistrate would be at home that evening; but such are the fruits of ignorant and misguided zeal.' The Gosvenor's account continues, saying 'But the magistrates thought not convenient to lay these things to the constable's charge before the assembly, but rather to admonish him for it in private, lest they should have discouraged and discountenanced an honest officer.'

There were three known whipping-posts in Boston: one on Queen Street, one on State Street, and one of the Common. By all accounts they were in constant use. In 1771, Samuel Breck wrote that 'The large whipping-post painted red stood conspicuously and prominently in the most public street in the town. It was placed in State Street directly under the windows of a great writing school which I frequented, and from there the scholars were indulged in the spectacle of all kinds of punishment suited to harden their hearts and brutalize their feelings. Here women were taken in a huge cage in which they were dragged on wheels from prison, and tied to the post with bare backs on which thirty or forty lashes were bestowed among the screams of the culprit and the uproar of the mob.'

## NEW YORK

### NEW YORK

*Device:* Pillory and whipping-post *Extant:*   
*Date:* *Remains:*   
*Located:* *Demolished:*

The first New York whipping-post was established by the Dutch. It was set up on the strand, in front of the Stadt Huys (State House), and frequently used. For example, while playing around in New Amsterdam, a drunk lady sailmaker managed to cut the chin of a woman called Vrouw Van Brugh. By way of punishment, the sailmaker was sentenced to be fastened to a stake, severely scourged and a gash made in his left cheek, and then be banished. To Van Brugh’s credit she spoke up for the sailmaker and requested that the penalty should not be carried out, and that if they were, they should be done in a closed room rather than in public.

Another example involved a man called Van ter Goes, and who was found guilty of ‘treasonable words of great flagrancy’. He was duly transported to a half-gallows with a rope round his neck, and duly whipped, branded and banished.

The *New York Gazette* of 14<sup>th</sup> May 1750, gave an account of David Smith, who on ‘Tuesday last...was convicted in the Mayor’s Court of Taking or stealing Goods off a Shop Window in this City, and was sentenced to be whipped at the Carts Tail round this Town and afterwards whipped at the Pillory which sentence was accordingly executed on him.’ The same newspaper of 2<sup>nd</sup> October 1752, also carried the stories of a boy who was pilloried for pick-pocketing, an Irishman who was whipped for stealing deerskins, and another man who was ‘whipt round the city’ for stealing a barrel of flour.

## RHODE ISLAND

*Located:* Outside the State House *Demolished:*

The *Essex Gazette* of 23<sup>rd</sup> April 1771 reported the case of William Carlisle of Newport who ‘was convicted of passing Counterfeit Dollars, and sentenced to stand One Hour in the Pillory on Little-Rest Hill, next Friday, to have both Ears cropped, to be branded on both Cheeks with the Letter R, to pay a fine of One Hundred Dollars and Cost of Prosecution, and to stand committed till Sentence performed.’

The Newport-born Unitarian clergyman William Ellery Channing (1780-1842), known at the time as the Apostle of Unitarianism, described the four modes of punishment used at the beginning of the nineteenth century. These were ‘executions by hanging, whipping of men at the cart-tail, whipping of women in the jail-yard, and the elevation of counterfeiters and the like to a movable pillory, which turned on its base so as to front north, south, east and west in succession, remaining at each point a quarter of an hour. During this execution of the majesty of the law the neck of the culprit was bent to a most uncomfortable curve, presenting a facial mark for those salutations of stale eggs which seemed to have been preserved for the occasion. The place selected for the infliction of this punishment was in front of the State House.’

### NEWPORT

*Device:* Whipping-post *Extant:*   
*Date:* *Remains:*   
*Located:* *Demolished:*

Convicted felons could were whipped at Newport up to the beginning of the twentieth century. The American historian Edward Channing (1856-1931) records seeing felons fastened to a cart and led slowly through the streets to a public spot where they were stripped and whipped on the back. By that time those felons were men only: women were whipped in the exercise yard of the jail, with only other women present as spectators.

## OTHERS-UNIDENTIFIED

*A postcard (postmarked 1904) showing unnamed stocks in which two men are incarcerated, and above them the testament “THE MEN OF MERRY, MERRY ENGLAND” is in the Dave Martin Collection.*

*A glossy sepia-tone postcard c.1920 showing ‘The Stocks, Hadley Green’ with the stocks located in an iron cage in what appears to be parkland, is in the VLA Collection.*

LLYWEL  
Stocks

O.S. Map Ref: .. -- ..--  
Brecons

Located in the churchyard.

## BARKING

Stocks, Whipping Post and Pillory

O.S. Map Ref: .. ..- ..-

*A glossy sepia-tone postcard (c. 1916) entitled "Barking Fair - The Stocks" but showing all three devices (with men incarcerated in the stocks), is in the Dave Martin Collection. It is not clear whether this is Barking in Greater.*

London, or Barking in Suffolk—I suspect it is Suffolk.

# DIRECTORY OF STOCKS, GYVES AND JOUGS IN ENGLAND AND SCOTLAND:

## SCOTLAND

### ANGUS

#### CLOVA

O.S. Map Ref: NO 32– 73–

Device: Joug

Date:

Extant:

Remains:

Demolished:

Now located in the Royal Museum of Scotland in Edinburgh (see City of Edinburgh: Edinburgh).

#### FOWLIS EASTER

(Near Dundee)

O.S. Map Ref: NO 32– 33–

Device: Joug

Date:

Extant:

Remains:

Demolished:

Located next to the south door of the church.

#### GLAMIS

O.S. Map Ref: NO 38– 46–

Device: Joug

Date:

Extant:

Remains:

Demolished:

Located near to the churchyard gate.

## ARGYLL & BUTE

### ROTHESAY

O.S. Map Ref: NS 08– 64–

Device: Joug

Date:

Extant:

Remains:

Demolished:

Mentioned in Andrews (1890).

## BORDERS

## ECKFORD

O.S. Map Ref: NT 70– 26–

Device: Joug

Date:

Extant:

Remains:

Demolished:

Located on the wall of the church.

## GALASHIELS

O.S. Map Ref: NT 49– 36–

Device: Joug

Date:

Extant:

Remains:

Demolished:

Mentioned in Andrews (1890).

## MERTOUN

(Near Clintmains)

O.S. Map Ref: NT 62– 32–

Device: Joug

Date:

Extant:

Remains:

Demolished:

Located on the south wall of Mertoun Kirk.

## OXNAM

O.S. Map Ref: NT 69– 18–

Device: Joug

Date:

Extant:

Remains:

Demolished:

Located on the wall of Oxnam Kirk.

## STOBO

O.S. Map Ref: NT 18– 37–

Device: Joug

Date:

Extant:

Remains:

Demolished:

Located in the entrance of the church porch, within a wooden case with a glass front.

## CITY OF EDINBURGH

### COVA

O.S. Map Ref: .. ..- ..-

Device: Joug

Date:

Extant:

Remains:

Demolished:

Mentioned in Andrews (1890).

## DUDDINGSTON

O.S. Map Ref: NT 29– 72–

Device: Joug

Date:

Extant:

Remains:

Demolished:

Located on the churchyard wall, to the right of the entrance gate.

Just in front of the joug is a 'loupin-on-stane' (mounting stone) and on the other side of the gate is a castellated watch-tower erected to "combat the lucrative trade in freshly buried corpses". M. Cant, in his book *Villages of Edinburgh* (J. Donald, Edinburgh, vol.1, 1986), describes how the elders of the Kirk were required, in rotation, to mount guard in the upper storey of the tower.

## EDINBURGH

O.S. Map Ref: NT 25– 73–

Extant:

Device: Joug Remains:   
 Date: Demolished:

Located in the Royal Museum of Scotland.

The museum possesses several sets of joughs, including those from the village of Clova, in Angus.

## CITY OF GLASGOW

### GLASGOW

O.S. Map Ref: NS 58– 65– Extant:   
 Device: Joug Remains:   
 Date: Demolished:

Mentioned in Andrews (1890).

## DUMFRIES & GALLOWAY

### APPLEGARTH

O.S. Map Ref: NY 10– 84– Extant:   
 Device: Joug Remains:   
 Date: Demolished:

Mentioned in Andrews (1890).

### DUMFRIES

O.S. Map Ref: NX 97– 76– Extant:   
 Device: Joug Remains:   
 Date: Demolished:

In the sixteenth century, Bessie Black was found guilty of lacking virtue (prostitution). Her sentence was to stand in the joughs at the Market Cross on six successive Sundays. The Dumfries jough is also mentioned in Andrews (1890).

### KIRKCUDBRIGHT #1

O.S. Map Ref: NX 68– 50– Extant:   
 Device: Joug Remains:   
 Date: Demolished:

Located on the Tollbooth (near the Mercat Cross), at the west corner of the building.

The jough has a very short chain.

### KIRKCUDBRIGHT #2

O.S. Map Ref: NX 68– 50– Extant:   
 Device: Joug Remains:   
 Date: Demolished:

Located on the Tollbooth (near the Mercat Cross), to the side of the door at the top of the staircase leading to the Mercat Cross.

### SANQUHAR

O.S. Map Ref: NS 78– 09– Extant:   
 Device: Joug Remains:   
 Date: Demolished:

Located on the wall of the wall of the Tollbooth.

Only the wall fixing remains—the collar and chain have disappeared. The remnant is nonetheless interesting in that it consists of a vertical rod and sliding ring, intimating that the jough could be self-adjusting in height to match the height of the felon.

## WIGTOWN

O.S. Map Ref: NX 43– 55– Extant:   
 Device: Joug Remains:   
 Date: Demolished:

Mentioned in Andrews (1890).

## EAST AYRSHIRE

### FENWICK

O.S. Map Ref: NS 46– 43– Extant:   
 Device: Joug Remains:   
 Date: Demolished:

Located on the wall of the church, to the left of the entrance door.

### GALSTON

O.S. Map Ref: NS 50– 36– Extant:   
 Device: Joug Remains:   
 Date: Demolished:

Mentioned in Andrews (1890).

### KILMAURS

O.S. Map Ref: NS 41– 41– Extant:   
 Device: Joug Remains:   
 Date: Demolished:

Located on the wall of the Tollbooth.

### MAUCHLINE

O.S. Map Ref: NS 49– 27– Extant:   
 Device: Joug Remains:   
 Date: Demolished:

Mentioned in Andrews (1890).

### SORN

O.S. Map Ref: NS 55– 26– Extant:   
 Device: Joug Remains:   
 Date: Demolished:

Located on the wall of the church, to the right of the entrance door.

## EAST LoTHIAN

### GARVALD

O.S. Map Ref: NT 58– 70– Extant:   
 Device: Joug Remains:   
 Date: Demolished:

Located on the west wall of the church, and protected behind an iron cage.

### PENCAITLAND #1

O.S. Map Ref: NT 44– 68– Extant:   
 Device: Joug Remains:   
 Date: Demolished:

Located on the south wall of Fountainhall—a late sixteenth century mansion.

### PENCAITLAND #2

O.S. Map Ref: NT 44– 68–  
 Device: Joug  
 Date:  
 Extant:   
 Remains:   
 Demolished:

Located on the wall of a 'doocot' (pigeon house) in the grounds of Fountainhall—a late sixteenth century mansion.

It is said that there was two, and possibly three, jougs on the doocot.

### SPOTT

O.S. Map Ref: NT 67– 75–  
 Device: Joug  
 Date:  
 Extant:   
 Remains:   
 Demolished:

Located on the wall of the church porch, to the right of the entrance door.

### FIFE

#### CERER

O.S. Map Ref: NO 40– 11–  
 Device: Joug  
 Date:  
 Extant:   
 Remains:   
 Demolished:

Located in the High Street, on the wall of the former Weigh House, now used as a Folk Museum.

### ST. ANDREWS

O.S. Map Ref: NO 51– 16–  
 Device: Joug  
 Date:  
 Extant:   
 Remains:   
 Demolished:

Mentioned in Andrews (1890).

### MORAYSHIRE

#### FOCHABERS

O.S. Map Ref: NJ 34– 58–  
 Device: Joug  
 Date:  
 Extant:   
 Remains:   
 Demolished:

Located on the Market Cross in Gordon castle, on the original site of the village.

Only half of the collar now survives, at the end of the chain.

### NORTH AYRSHIRE

#### MILLPORT

O.S. Map Ref: NS 16– 54–  
 Device: Joug  
 Date:  
 Extant:   
 Remains:   
 Demolished:

Located on the gate-post of the Old Kirton graveyard, in what is now Golf Road.

### PERTHSHIRE & KINROSS

### ABERNATHY

O.S. Map Ref: NO 18– 16–  
 Device: Joug  
 Date:  
 Extant:   
 Remains:   
 Demolished:

Located on the medieval Round Tower.

### CRIEFF

O.S. Map Ref:  
 Device: Stocks  
 Date:  
 Extant:   
 Remains:   
 Demolished:

The iron stocks are unusual in that they are made from a strip of iron bent to form four leg restraints, and set over a wooden bar which is itself set on two iron stands bent to form four feet. The stocks are hinged at one end and fixed at the other with a ring padlock.

*A sepia-tone postcard (c. pre-1918) of the stocks is in the VLA Collection, and a glossy sepia-tone card (c. 1940s-1950s) is in the Dave Martin Collection.*

### FOWLIS WESTER

O.S. Map Ref: NH 92– 24–  
 Device: Joug  
 Date:  
 Extant:   
 Remains:   
 Demolished:

Located on the Celtic Cross, near to the church.

### KINROSS

O.S. Map Ref: NO 11– 02–  
 Device: Joug  
 Date:  
 Extant:   
 Remains:   
 Demolished:

Located on the Town Cross, at high level.

### MEIKLEOUR

O.S. Map Ref: ... ..  
 Device: Joug  
 Date:  
 Extant:   
 Remains:   
 Demolished:

*A sepia-tone postcard (postmarked 1917) of the joug and stone fixing post is in the Dave Martin Collection.*

### MONEYDIE

O.S. Map Ref: NO 06– 29–  
 Device: Joug  
 Date:  
 Extant:   
 Remains:   
 Demolished:

Located on the church wall, to the left of the entrance door.

The joug has a very short chain.

### MONZIE

O.S. Map Ref: NN 87– 25–  
 Device: Joug  
 Date:  
 Extant:   
 Remains:   
 Demolished:

Located on the wall of the church.

### MOULIN

O.S. Map Ref:  
 Device: Joug  
 Date:  
 Extant:   
 Remains:   
 Demolished:

(Pitlochry)

A plaque outside of the churchyard provides information on the Joug Tree.

## SOUTH LANARKSHIRE

### DUNSYRE

*O.S. Map Ref:* NT 07– 48–

*Device:* Joug

*Date:*

*Extant:*

*Remains:*

*Demolished:*

Located on the north wall of the church, and enclosed in a wooden case with a glass front.

### LAMINGTON

*O.S. Map Ref:* NS 97– 31–

*Device:* Joug

*Date:*

*Extant:*

*Remains:*

*Demolished:*

### LESMAHAGOW

*O.S. Map Ref:* NS 81– 39–

*Device:* Joug
